Quicker, lighter, more cost-effective and 100% recyclable. The ECORR® Crate meets or exceeds the strength of a standard wood crate.
BENEFITS

▪ **Strong**: Patented design meets or exceeds the strength of a standard wood crate. Light-Duty, Standard-Duty and Heavy-Duty rated options offered.

▪ **Fast**: Prefabricated "Quick Ship" Crates improve production output and reduce labor costs.

▪ **Saves Space**: Collapsible, self-contained kit allows for easy storage freeing up to 75% more space VS pre-fabricated wood crates.

▪ **Light**: Approx. 40%-50% lighter than wood reduces shipping costs – especially when shipping air freight.

▪ **Water-Resistant**: Not a coating – Our Proprietary ECORR®Shield Integrated Linerboard keeps water out while remaining 100% Recyclable.

▪ **Internationally Accepted**: ISPM 15 compliant. *Optional Wood Pallets are Heat-Treated & Stamped.

▪ **Customizable**: ECORR®Crates are customizable. 12 inches or 12 Feet – modular design can adapt.

▪ **Safe**: Lighter weight offers easier handling on the shop floor reducing injury claims.

▪ **Eco-Friendly**: Reusable and 100% Recyclable at end-of-life cycle offers cash-in-hand rather than added expense from disposal fees. Reduction in carbon footprint.
