## More information on Budget Question 2: Emergency Powers!

***There have been several inquiries on budget question 2, around the Emergency Powers granted to Condo Association Boards and how that is determined.***

An explanation summary of **Key Points** is noted below, for the full language/outline please see **Section 718.1265**, Florida Statutes, accessible from Owners ONLY Website.

**IMPORTANT:** Emergency powers are **not a decision** that can be made by any Association Board.

The limited proxy question posed is this:

2. Do you want to authorize the Board of Directors to use any and all available reserve funds in the event of a disaster or catastrophic event that causes damage to the common elements of your association? Such uses may include funding the insurance deductible, securing common property, etc.

In the context of community associations (such as condominiums and HOAs) in Florida, "emergency powers" refer to special legal authorities granted to the board of directors during certain emergency situations - most commonly after a natural disaster (like a hurricane), a public health crisis, or other events that significantly disrupt normal operations.

**Key points about emergency powers:**

**Source:** These powers are outlined in the Florida Condominium Act (**Section 718.1265, Florida Statutes**) and similar provisions exist for HOAs.

**Purpose:** They allow the board to act quickly and decisively to protect residents, property, and association interests when normal procedures may be too slow or impractical.

**Examples of emergency powers include:**

- Canceling or rescheduling meetings with less notice than usual.
- Implementing emergency repairs or securing the property without prior owner approval.
- Entering units to mitigate damage or address safety concerns.
- Contracting for debris removal, security, or restoration services.
- Adopting temporary rules to address the emergency (such as restricting access to amenities).
- Relocating association records if the office is inaccessible.

### **Limitations:**

- These powers are **only in effect during a declared state of emergency** (by the Governor or local authorities) and must be used in good faith for the safety and welfare of the community.
- Once the emergency ends, the board must return to normal procedures and governance.

---

It is also important to share that any reserve funds used for state declared disaster purposes must be returned to reserves once i.e. insurance or other payments have been made.
