

BGI GPS TRACKING

SAFE ALERT PLUS GPS Tracker & Phone

Uses: *Personal Tracker, Elder Care, Special Needs Subjects, Wayward Patient, Children and more..*

The new **Safe Alert Plus** GPS Tracker and Phone combination is the most comprehensive medical alert device on the market today. It provides senior citizens unprecedented independence, safety and security. **Safe Alert Plus** features advanced live GPS tracking, two way voice communication, send help alert button, falling alerts (with the built in 3-axis accelerometer), geo zone alerting, medication alerts/reminders and much, much more. Users can easily dial a preset phone number by using one of the four quick-dial buttons or the SOS button for instant caretaker connectivity. This sensitive, accurate and reliable device will give the user and their loved ones **Ultimate Peace of Mind**.

- Real-Time GPS Tracking 24/7 & Cellular Phone
- **5 speed dial emergency phone call buttons**
- **New! Fall Detection:** If built in 3D motion sensor detects unnatural falling motion an instant phone call will go out to caregiver
- **Panic / SOS Button:** Instant phone call, text and/or email alert notifications are sent to caregiver(s) or parents(s) when SOS button is pressed
- **Pre-set Geo Zone/Fence:** Text and/or email alerts are sent if any zone is crossed
- Quad-Band for worldwide coverage (850, 900, 1800, 1900MHz)
- Longer battery life via standby mode
- Li-Polymer 850 mAh, 3.7 v rechargeable battery
- OLED display
- Last location position accuracy within 15 feet
- Compact size: 3.425" x 1.75" x 0.67"

Features

- **Live GPS Tracking - 24/7:** Instantly locate and track **Safe Alert Plus** exact location on one map screen via any web connected device
- **GPS Tracking:** Tracker position updates every 2 minutes while in motion (**update interval may adjust up slightly depending on battery charge remaining and signal strength detected in order to conserve battery charge*)
- **Mobile Software Access:** Access the tracking software while on the go via any web connected mobile device (IOS or Android - tablet or smart phone)
- **Global Mapping:** Map, Hybrid, Birds Eye and Street Views - Using the latest 3d mapping from Google and Microsoft
- **Map Views:** individual or group

Real-Time Notifications

Real Time Event Alerts delivered to caregiver(s), parents(s) via text message and email

- **Geo Zone Alerts:** Alert notifications via text and/or email when tracker arrives/departs a pre-defined zone/location
- **Fall Detection Alert:** Device will initiate an emergency phone call if a fall motion is detected (fainting, falling, etc)
- **SOS Button Alert:** Instant phone call, text and/or email when SOS button is pressed
- **Fine Tune:** Choose which tracker and which alerts to receive

Battery Performance

- **Battery lasts up to 24-30 hrs. of operation**
