Socks for the Seasons - Information

To ensure comfort when wearing rain boots on wet days, all lower elementary students will need 2 different kinds of socks for the season we experience during the school year. These may be included in your child's change of clothes bag.

- lightweight cotton socks for warmer months
- tall, thick, calf- or knee-length wool or wool-blend socks for colder months.

Although it will be several months before your child will need socks for cold, wintry weather, we advise you to please plan and order at least 3 - 5 pairs of tall, thick, calf- or knee-length wool or wool-blend socks for the colder months which are before us. Our rain boots will be used almost daily during the winter and boot-liners and good heavy socks are a must for staying warm.

Dear Lower Elementary Parents,

Welcome to the lower elementary community of 2022 - 2023! We are so glad that you have joined us, and we look forward to getting to know you and your child as we go through this school year together.

Your assignment:

Please **write one letter** of introduction, as a family, about your child. Consider his or her strengths, weaknesses, likes, and dislikes. Tell us things about your child that we may not have the opportunity to discover in the classroom, such as your child's interests, hobbies, fears, fascinations, and frustrations.

These letters assist us in forming a partnership for the care and education of your child. We look forward to working with you as a family and to getting to know your child as the school year progresses.

With great respect,

Becky Bittner -Lower Elementary Guide
