Product LT-2000D

Revision Date 06/11/2015

Revision 2

# **Safety Data Sheet**

## **SECTION I: IDENTIFICATION**

Product Name LT-2000D

Identifier Uses Closed Loop Treatment

Supplier Clear Water Technologies, LLC

13560 Colombard Court Fontana, California 92337 Tel: 844-429-8324

Contact Person <u>info@clearwatertech.com</u>

Emergency Telephone 24-HOUR EMERGENCY TELEPHONE: INFOTRAC: I-800-535-5053 INTERNATIONAL#: I-

352-323-3500

## **SECTION 2: HAZARDS IDENTIFICATION**

Appearance Liquid

Color Clear, pink liquid.

Odor Musty

Pictogram(s)

Signal Word Danger

Hazard Statements H302 Harmful if swallowed.

H361 Suspected of damaging fertility or the unborn child [\*] [\*].

H314 Causes severe skin burns and eye damage

Precautionary Statements P202 Do not handle until all safety precautions have been read and understood.

P308 + P313 IF exposed or concerned: Get medical advice/ attention.

 $P280\,Wear\,protective\,gloves/\,protective\,clothing/eye\,protection/face\,protection.\\ P30\,I\,+\,P330\,+\,P331\,IF\,SWALLOWED:\,Rinse\,mouth.\,Do\,NOT\,induce\,vomiting.$ 

P303 + P361 + P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated

clothing. Rinse skin with water/shower

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER or doctor/physician

Contains disodium metasilicate

BORIC ACID (HBO2), SODIUM SALT, TETRAHYDRATE SODIUM METABORATE

TETRAHYDRATE sodium oxido(oxo)borane sodium nitrite

 $potassium\, hydroxide$ 

sodium 4(or 5)-methyl-1H-benzotriazolide

phenol phthale in

GHS Classification

Physical and Chemical Hazards Not Human Health Acut

Not classified

Acute Tox 4 - H302, Repr. 2 - H361, Skin Corr. 1C - H314

**Environment** Not classified

OSHA Regulatory Status This product is Hazardous under the OSHA Hazard communication Standard.

Inhalation Inhalation of high concentrations of vapors may cause irritation of the respiratory tract with

LT-200D Page: I

sore throat, coughing, shortness of breath, possible chest pain.

IngestionHarmful if swallowed. Suspected of damaging fertility.Skin contactCorrosive! Can cause redness, pain, and severe skin burns.

Extreme irritation of eyes and mucous membranes, including burning and tearing. Causes

serious eye damage. Causes severe eye burns.

Routes of Exposure Unknown

## **SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS**

Composition Comments Confidential business information has been removed without affecting the overall safety

information on the safety data sheet.

### **SECTION 4: FIRST AID MEASURES**

Description of first aid measures

**General Information** General first aid, rest, warmth and fresh air.

**Inhalation** If this product is inhaled, move the exposed person to fresh air promptly. Seek medical

attention if symptoms persist. Give artificial respiration if the exposed person is not

breathing.

**Ingestion** If the product is ingested, seek medical attention immediately. Do NOT give the exposed

person anything to drink. Do NOT induce vomiting unless directed to do so by medical

personnel. Never give anything by mouth to an unconscious person.

**Skincontact** If this product contacts the skin, immediately flush the affected area with plenty of clean

running water for at least fifteen (15) minutes. If the product penetrates the clothing, promptly remove the contaminated clothing or shoes, and flush the affected area as

described. Seek medical attention if irritation persists.

Eye contact If the product contacts the eyes, immediately flush eyes with plenty of clean running water

for at least fifteen (15) minutes, lifting the upper and lower eyelids occasionally. Remove

contact lenses if worn. Seek medical attention if irritation persists.

Most important symptoms and effects, both acute and delayed

General Information The severity of the symptoms described will vary dependent of the concentration and the

length of exposure.

Inhalation Inhalation of high concentrations of vapors may cause irritation of the respiratory tract with

sore throat, coughing, shortness of breath, possible chest pain.

IngestionHarmful if swallowed. Suspected of damaging fertility.SkincontactCorrosive! Can cause redness, pain, and severe skin burns.

Extreme irritation of eyes and mucous membranes, including burning and tearing. Causes

serious eye damage. Causes severe eye burns.

Routes of Exposure Unknown

Most important symptoms and effects, both acute and delayed

Notes to the Physician There is no specific antidote. Treatment of overexposure should be directed at the control of

symptoms and the clinical condition of the patient.

### **SECTION 5: FIREFIGHTING MEASURES**

Auto Ignition Temperature (°C)
Flammability Limit-Lower (%)
Flammability Limit-Upper (%)
Flash point

No Information available.
No Information available.
No Information available.

**Extinguishing Media** Use fire-extinguishing media appropriate for surrounding materials. Water, foam, dry

chemical or carbon dioxide.

**Hazardous combustion products** Hazardous combustion results in the release of oxides of nitrogen, oxides of carbon and

possibly toxic phosphines. May result in a caustic residue.

Unusual Fire & Explosion Hazards Special Fire Fighting Procedures Protective equipment for fire-

fighters

Dried residue can thermally decompose, giving off irritating and possibly toxic fumes. Use water to cool containers exposed to a fire. Avoid breathing fire vapors.

Wear full protective clothing and self-contained breathing apparatus, suitable gloves and

boots.

LT-200D Page: 2

### SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions For personal protection, see section 8. In case of inadequate ventilation, use respiratory

protection. Do not smoke, use open fire or other sources of ignition. In case of spills, beware  $% \left\{ 1,2,\ldots ,n\right\}$ 

of slippery floors and surfaces.

Environmental Precautions Spill Clean Up Methods Keep out of drains, municipal sewers, open bodies of water and water course.

Restrict non-essential personnel from the area. Stop leak if possible without risk. Absorb in vermiculite, dry sand or earth and place into containers. Flush with plenty of water to clean spillage area. Do not contaminate water sources or sewer. Place into chemical waste container for disposal according to local, state or federal regulations. Neutralize residue with

lime or soda ash and flush spill area. DO NOT TOUCH SPILLED MATERIAL! Wash

thoroughly after dealing with a spillage.

## **SECTION 7: HANDLING AND STORAGE**

**Handling** Use proper personal protection when handling. Provide good ventilation. Avoid contact

with skin and eye sand clothing. Do not use contact lenses. Avoid inhalation of vapors and mists. Avoid prolonged or repeated contact. Do NOT ingest. Wash thoroughly after

handling. Rinse container before disposal.

Usage DescriptionStore in a cool, dry, and well-ventilated place away from incompatible materials. Vent

containers frequently, and more often in warm weather to relieve pressure. Keep container tightly closed when not in use. Do not get in eyes, on skin, or on clothing.

**Storage Precautions** Store closed containers in a cool, dry, well-ventilated area away from incompatible materials.

This product is stable under normal conditions of handling and storage. Avoid cold temperatures. The recommended storage temperature is above 32°F, preferably at room temperature (70°F). Store away from strong acids, strong reducing agents, ammonia salts, amines, organic matter, phthalic acid and cyanides. The recommended shelf life is two (2) years. It is recommended that products be retested if stored for more than two (2) years. Under ideal storage conditions, the shelf life is almost indefinite. Store away from strong acids, strong reducing agents, ammonia salts, amines, organic matter, phthalic acid and

cyanides.

Specific End Use(s) The identified uses are in section 1 of this Safety Data Sheet.

## **SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**

Protective Equipment

Ingredient Comments

No information for the control parameters

Process Conditions
Engineering Measures
Respiratory Equipment

Provide eyewash, quick drench. Provide adequate ventilation.

Use of respirator protection is not generally required. However, if exposure is above the stated limits or ventilation is inadequate, use a NIOSH approved acid gas/organic vapor respirator to reduce potential for inhalation exposure. When using respirator cartridges, they

must be changed frequently to assure breakthrough exposure does not occur.

When handling this product, it is recommended to wear chemical resistant gloves. The choice of suitable protective gloves depends on work conditions and what chemicals are

handled, but we have positive experience with gloves made of Rubber.

Use equipment for eye protection tested and approved under appropriate government

standards such as NIOSH (US) or EN 166(EU).

Hygiene Measures

**Hand Protection** 

**Eye Protection** 

DO NOT SMOKE IN WORK AREA! Wash hands at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes wet or contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or

smoke.

### **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

Information on Basic Physical and Chemical Properties

Appearance Liquid.

Color Clear, pink liquid.

Odor Musty.

Odor Threshold -Lower No Information available.

Odor Threshold - Upper No Information available.

pH-Value, Conc. Solution 12.5

Melting point 32.0 °F

Initial boiling point and boiling

range

212.0 °F

**Flashpoint** No Information available.

**Evaporation rate** No Information available.

Flammability State No Information available.

Flammability Limit-Lower (%) No Information available.

Flammability Limit - Upper (%) No Information available.

Vapor pressure 23.8 mm Hg 0.0

Vapor Density (air=1) Not determined.

Relative density 1.17 @ 68.0 °F

**Bulk Density** No Information available.

**Solubility** Completely soluble in water.

**Decomposition temperature** No Information available.

Partition coefficient; n-octanol/water No Information available.

Auto Ignition Temperature (°C) No Information available.

**Viscosity** No Information available.

**Explosive Properties** No information available.

Oxidizing properties No Information available.

Molecular Weight Not known.

**Volatile Organic Compound** No Information available.

## **SECTION 10: STABILITY AND REACTIVITY**

**Reactivity** Reaction with strong acids, strong reducing agents, ammonia salts, amines, organic matter,

phthalic acid and cyanides.

**Stability** This product is stable at ambient temperatures and atmospheric pressures.

Hazardous Polymerization Hazardous polymerization is not expected to occur under normal temperatures and

pressures.

Hazardous Decomposition Products Hazardous combustion results in oxides of nitrogen. Decomposition of sodium nitrite may

leave a caustic residue.

**Conditions to Avoid** Avoid extreme temperatures and storing in large quantities and for long periods of time.

Materials to Avoid Do not mix with other chemicals unless listed on directions. Keep away from Strong acids,

strong reducing agents, ammonia salts, amines, organic matter, phthalic acid and cyanides.

## **SECTION 11: TOXICOLOGICAL INFORMATION**

Toxicological Information No Information available.

Acute Toxicity (Oral LD50) >1659.00mg/kg Rat
Acute Toxicity (Dermal LD50) >771.00mg/kg Rabbit
Acute Toxicity (Inhalation LC50) No Information available.

**Skin Corrosion/Irritation**No Information available.

Respiratory Sensitization
Skin Sensitization
No Information available.
Reproductive Toxicity:
No Information available.
No Information available.

Germ Cell Mutagenicity: Genotoxicity - In Vitro Genotoxicity - In Vivo

Carcinogenicity:

Carcinogenicity No Information available.

NTP - Carcinogenicity phenolphthalein: Reasonably anticipated to be a human carcinogen.

OSHA - Carcinogenicity

The product and its components are not listed.

IARC Carcinogenicity

The product and its components are not listed.

Specific Target Organ Toxicity - Single Exposure:

**STOT - Single Exposure** No Information available.

Specific Target Organ Toxicity - Repeated Exposure:

**STOT - Repeated Exposure** No Information available.

Name	LD50 Oral	LD50	LC50 Inhalation
Isodium nitrita	157.9mg/kg Rat 175mg/kg Mouse 186mg/kg Rabbit 85mg/kg Rat		5.5mg/l (vapors) Rat 4 Hours
potassium hydroxide	284mg/kg Rat		
sodium 4(or 5)-methyl-1H-benzotriazolide	920mg/kg		

## **SECTION 12: ECOLOGICAL INFORMATION**

**Ecotoxicity** No Information available.

Acute Toxicity - Fish LC50 96 Hours >5565.00ppm Onchorhynchus mykiss (Rainbow Trout)

Acute Toxicity - LC50 48 Hours >7475.00ppm Daphnia magna

**Aquatic Invertebrates** 

Acute Toxicity - Aquatic Plants EC50 72 Hours > 45.00ppm

**Degradability** No information available.

Bioaccumulative Potential No Information available.

**Mobility** Completely soluble in water.

Results of PBT and vPvB Assessment The product does not contain any PBT or vPvB substances.

Other AdverseEffects None known.

Name	Acute Toxicity (Fish)	Acute Toxicity	Acute Toxicity (Aquati c
Isodium nitrite	LC50 96 Hours 0.13mg/l Onchorhynchus mykiss (Rainbow Trout)	EC50 48 Hours 100.00mg/l Daphnia magna	
H-henzotriazolide	macrochirus (Bluegill)LC50 96 Hours 23./0	LC50 48 Hours 245.70mg/IDaphnia magna	

### SECTION 13: DISPOSAL CONSIDERATIONS

Waste Management When handling waste, consideration should be made to the safety precautions applying to

handling of the product.

**Disposal Methods**Dispose of waste and residues in accordance with local authority requirements. Do NOT

dump into any sewers, on the ground or into any body of water. Rinse containers before disposal. Since emptied containers contain product residue, follow label warnings even after

container is emptied.

## **SECTION 14: TRANSPORT INFORMATION**
