

Holistic Horsemanship Academy™

Remote Training Program

Holistic Horsemanship LLC

Summary:

Holistic Horsemanship's Remote Training Program is an online educational program for people looking to develop or improve their relationship with their horse in order to begin or continue training their horse. It will also help continue to develop the person's horsemanship and riding skills. The program is a customized guide for horse owners based on their individual needs. Horses are unique individuals and each has their own concerns that require customization in handling. My goal is always to provide horses and their riders with the tools they need to take their partnership to the next level.

How it Works:

This program is "at your own pace" and "pay as you go." Working with your horse is supposed to be fun and not on a schedule. You and your horse will pick up on some concepts quickly and not on others. That is to be expected, as you are each individuals learning something new and learning to work together. The flexibility this program provides, allows you to work for as many days as you need on a concept before you move on. Once you are either proficient at the session or determined that you are no longer making progress, fill out the progress report and e-mail it to holistichorsemanshipllc@gmail.com. I will review the progress report and respond one of two ways:

- If you are proficient at the session, I will suggest moving to the next session.
- If you need additional help, we will talk one-on-one by a method of your choosing: an e-mail, a scheduled 15 minute conference call, or scheduled 15 minutes on instant messenger. Regular Office Hours for one-on-one interaction are Wednesdays 11am-1pm CST and Saturdays from 8am-8:30am. Alternate Office Hours may be arranged for special cases.

This program is low pressure in that it has no contracted commitment. You can do as many or as few sessions as you choose. However, it is recommended that you complete the sessions in the order I suggest. I will recommend sessions based on your goals and current situation.

Each session includes:

- PDF file containing concepts and instructions and blank progress report.
- Video (through YouTube) may also be provided depending on the concept.
- If needed, 1:1 interaction with the trainer in the form of 1 email, 15 minute conference call or 15 minute instant messenger

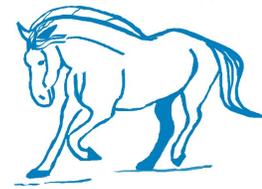

Let's Get Started!

- Assessment: I'm happy to come and visit you to conduct an initial assessment if you would like a better idea of what your horse needs or if you are having a specific issue that keeps you from even being able to begin working with your horse (such as the horse wanting to attack you). Like the rest of this program, there is no additional obligation above and beyond the assessment.
- If we don't do an assessment, email me when you buy your first session. Help me know how to customize your needs by telling me about yourself, your horse and your goals!

Holistic Horsemanship LLC Training Methods Defined

With nearly twenty years of experience working with a wide range of horses and disciplines, Lisa Wynne has developed and uses her own nonviolent training methods based on herd hierarchies. She works with the psychological and physiological challenges a horse may have all while developing the desired skill set in each horse. She is a gentle, but firm trainer with measured responses based on an individual horse's needs. Lisa's methods are often successful in cases where "Natural Horsemanship" has not worked for a horse.

A Word About Equine Liability:

Please note that there are inherent risks to equine activities and that Holistic Horsemanship, LLC, its trainers and staff are not liable for you, your horse, your property or anyone else's property.
