

eTranscript CA 2.0: Supporting the Cradle to Career Initiative

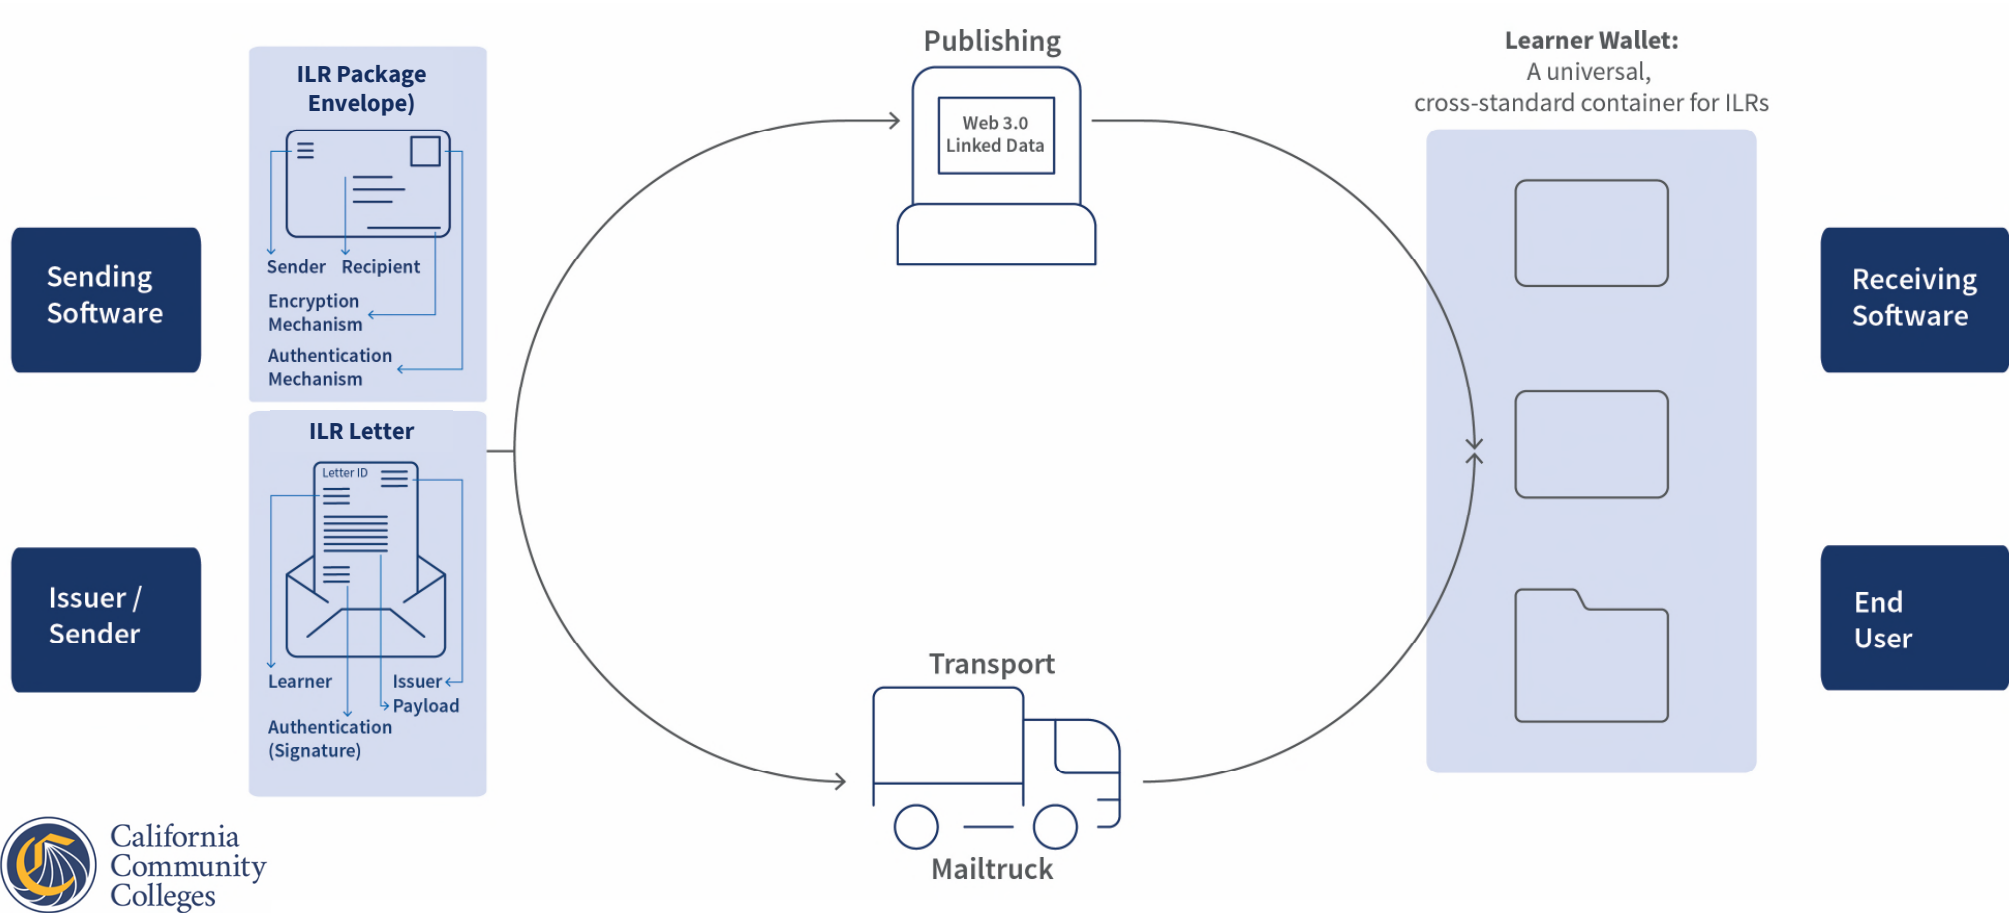

Making the right data available for learners
and stakeholders AT THE RIGHT TIME

Why?

Moving Data from Cradle to Career

State Education Agencies (SLDS)	DSS	Workforce	Justice

				K-8 Education	
				Secondary Education	
				Community College	
				4-Year Colleges (Public & Private)	
				Workforce Training	

National View: Individual Learner Record

eTranscript CA 2.0: Electronic Transcripts

- Transcript exchange provided by the California Community Colleges Chancellor's Office (CCCCO) since 2007
- Exchanging transcripts in the California Electronic Transcript Standard between CCC, CSU, UC systems (and private colleges)
- 102 Institutions are registered with the service
- Upgrade of system architecture planned leveraging
 - CCC SuperGlue
 - EdExchange

eTranscript CA 2.0: Leveraging EdExchange

- Neutral platform for data and digital documents.
- Developed by the California Community Colleges Technology Center, operated by the Postsecondary Electronic Standards Council (PESC), including partners such as National Student Clearinghouse, & Parchment
- Open web services model securely transmits files real time directly between colleges and proprietary exchanges
- Payload agnostic, supporting a multitude of document types
- May be used to extend eTranscript CA to all postsecondary institutions in the state and compatible with CCGI's platform

eTranscript CA 2.0: Beyond Transcripts

- Extend platform to deliver other forms of learning documentation
- Integrate workflow and privacy controls that enable learner permission to share information with colleges and employers
- Connect with a new system under development by the California Department of Social Services (CDSS) to share, with consent, confirmation of specific statuses
- Opportunity to enable master data management that supports data quality policy and technology support throughout the system

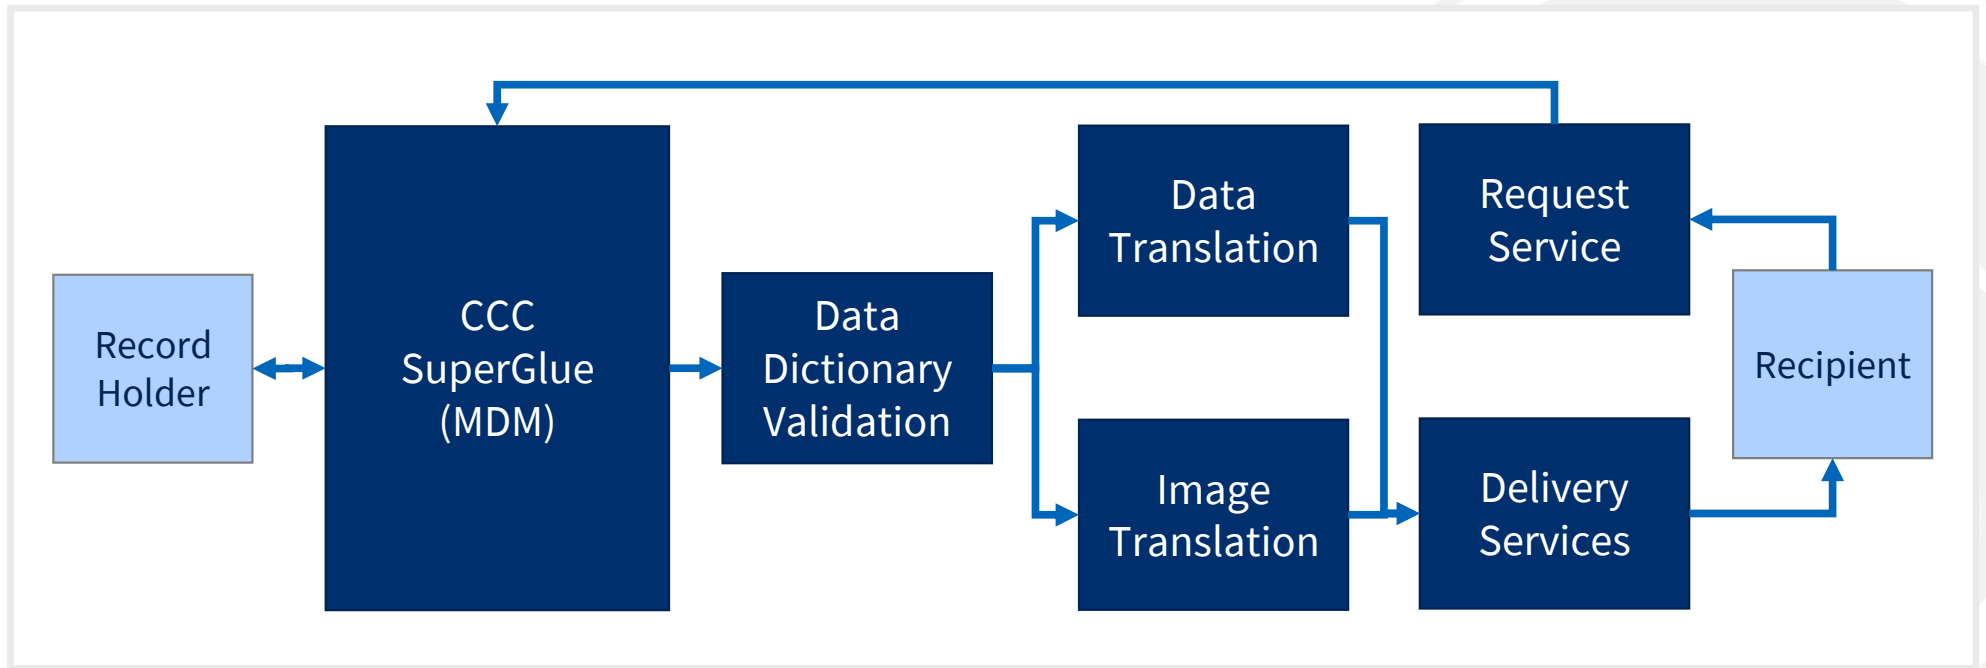

California College Guidance Initiative (CCGI)

- Manages CaliforniaColleges.edu, the State's college and career guidance platform for 6th-12th grade students
 - 1 in 5 California 6-12th grade students has a transcript-informed account
 - More than half of school counselors in K12 have accounts on the system
- Feeds into seamless application integrations with CCCApply, Cal State Apply, and the California Student Aid Commission, which enables:
 - 100% match rate on identifiers across systems
 - Student approval of the data that gets shared with receiving institutions
 - Data informed decisions about admissions, placement, guidance, financial aid and supportive services, based on the most timely and accurate data available

CA Department of Social Services (CDSS)

- CDSS is responsible for the oversight and administration of programs serving California's most vulnerable children and adults.
- CDSS systems contain information regarding eligibility and receipt of CDSS-administered benefits and services.
- With the individual's consent, CDSS can pull this information from these systems and then provide the information to EdExchange through an API.
- Identifying the benefits and services received by these individuals can give others the information needed to provide these individuals additional assistance.
- The two main systems from which CDSS will be able to pull the data are the California Statewide Automated Welfare System (CalSAWS) and the Child Welfare Services / Case Management System (CWS/CMS). Both of these systems are currently being upgraded.

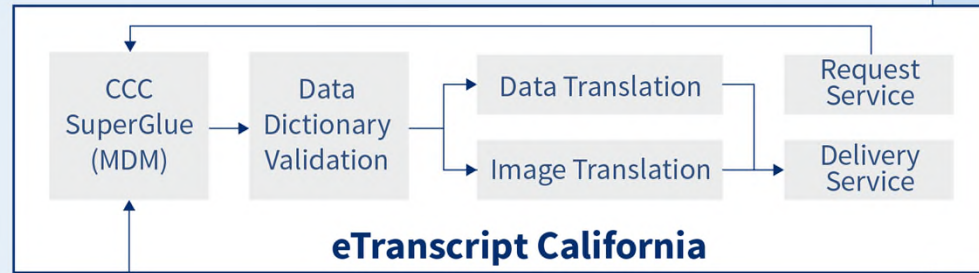

Transcript Exchange

“Cradle to Career” Individual Learner Record (ILR) Exchange

Community Colleges

4 Yr Colleges/Universities

- Academic Transcript
- Comprehensive Learner Record (CLR)
- Competency-based transcript
- Experiential/Co-Curricular Transcript
- Certificates
- Certifications
- Badges

4 Yr. College/ University

California Community Colleges

- eTrans CA**
- 71 CCC's
 - 20 CSU's
 - 5 UC's
 - 7 Other

- EdExchange HE Vendors**
- Parchment/Credentials
 - Natl Student Clearinghouse
 - Liaison EDU
 - Digitary (Australia, Europe)

EC-K12

Beyond Education

- Transcript/Student Performance Data**
- CCGI
 - CDE
