

Fluegel's 4 Step Program 2019
5,000 Square Foot Lawn

1st Application: The first application should be applied after you have mowed your lawn in the Spring. 21-0-10 with Dimension is a fertilizer that contains a crabgrass and annual weed pre-emergent. A 20 lb bag will cover up to 5,000 sq. ft.

2nd Application: The second application should be applied between June 15th and July 1st. 25-00-14 with Trimec is a fertilizer with a broadleaf post-emergent. The weed killer in this product will work when the weeds are up and actively growing. A 20 lb bag will cover up to 5,000 sq. ft.

3rd Application: The third application should be applied between the end of August and September 15th. 25-0-15 is a slow-releasing fertilizer that contains sulfur and iron to help keep the green in your lawn. A 20 lb bag will cover up to 5,000 sq. ft.

4th Application: The last step is applied sometime late in October before the snow starts to fly. 20-0-10 is a lawn thickener to feed the roots of your lawn. A 25 lb bag will cover up to 5,000 sq. ft.
