PROIMPLANT

Simplicity: the cornerstone of the new implantology motor developed by Bien-Air Dental. We do not need to calibrate our motor: the MX-i motor & 20:1 contra-angle have been validated to remain extremely accurate over a 1600 Sterilization-cycle life.

PROIMPLANT

SET PROIMPLANT REF 1700768-001

IMPLANT DENTISTRY

When the MX-i micromotor is paired with the CA 20:1 handpiece, the ProImplant provides unparalleled speed stability and Accuracy. No need for cumbersome torque calibration, the system is guaranteed to remain within 1% accuracy of the display during the service life. As the most durable implantology handpiece on the market*, the CA 20:1 handpiece

OMS

The OMS has been specially developed for oral surgeons and oral maxillofacial surgeons. Thanks to the many possible motor-instrument combinations, the OMS is the perfect solution for implant placement, periodontal surgery and oral surgery procedures, including hemisection.

OMS

SET OMS REF. 1700769-001

ORAL SURGERY (incl. hemisection)

Combined with the PM 1:2 straight handpiece and the MX-i PLUS micromotor, the OMS is the perfect solution for your oral surgery procedures, particularly wisdom tooth extraction.

Thanks to the high power of the PM 1:2, the sectioning time is re-

ORAL SURGERY & PERIODONTAL SURGERY

You can also carry out your oral and periodontal surgery procedures using the combination of the OMS, MX-i PLUS micromotor and new CA 1:2.5 highspeed handpiece.

While the angular shape of the handpiece might be better adapted

Lubricare

Lubricare 2 automatically performs maintenance (cleaning and lubrication) of dental handpieces, which are essential for daily practice.

>>> Up to four handpieces
in a short time

 **ONLY 20 SEC.**

Thanks to the different preprogrammed operating modes suitable for each specific handpiece, Lubricare 2 can automatically perform maintenance of up to four handpieces in a short time. It cleans a turbine in approximately 20 seconds and a contra-angle in 40 seconds.
