THE POSITION

The Pennsylvania Utility Commission (PUC) has an exciting opportunity in the Bureau of Investigation and Enforcement's Pipeline Safety Division for a Civil Engineer General position in its **Northeastern PA Region: Bradford, Carbon, Centre, Clinton, Columbia, Lackawanna, Lehigh, Luzerne, Lycoming, Monroe, Montour, Northampton, Northumberland, Pike, Potter, Snyder, Sullivan, Susquehanna, Tioga, Union, Wayne, and Wyoming Counties**. This is an entry-level position within an engineering staff of the Bureau of Investigation and Enforcement performing Operational Compliance Inspections (OCIs), Reportable Incident Investigations (RIIs), Non-reportable Incident Investigations (NRIIs), and Emergency Action Implementation Reviews (EAIRs). An employee in this job performs a variety of pipeline safety engineering work assignments that require the interpretation and application of standard engineering techniques, procedures, and guidelines, using engineering judgment in determining whether compliance with regulations has been achieved.

Apply today and become a part of our dedicated and valued team!

DESCRIPTION OF WORK

A Civil Engineer General is responsible for the enforcement of the Public Utility Commission Laws and pipeline Safety Rules and Regulations of the Commission and the U.S. Department of Transportation as they apply to the pipeline operators under the jurisdiction of the Public Utility Commission. The person in this position works as a team member under the direction of senior engineering staff and supervisors in the reviewing, reporting, and inspection of operational compliance of operation plans, procedures, and engineering operations of public utilities and other pipeline operators.

An employee in this job performs a variety of pipeline safety engineering work assignments that require the interpretation and application of standard engineering techniques, procedures, and guidelines, using engineering judgment in determining whether compliance with regulations has been achieved. Work will be completed under the direction of the supervisor or senior engineering staff performing preliminary pipeline safety investigations. The employee shall draft an inspection report with findings and recommend further action steps needed by the utility to achieve compliance. Work is reviewed in-progress and upon completion for technical adequacy, completeness, overall quality, and attainment of objectives.

Work Schedule and Additional Information:

- Full-time employment.
- Work hours are 8:00 AM to 4:30 PM, Monday - Friday, with a 60-minute lunch.
- This position requires moderate travel (including overnight travel).
- A state vehicle and all Personal Protective Equipment will be provided.
- Opportunities for career advancement will be based on experience and job performance.
- **Salary:** In some cases, the starting salary may be non-negotiable.
- You will receive further communication regarding this position via email. Check your email, including spam/junk folders, for these notices.

REQUIRED EXPERIENCE, TRAINING & ELIGIBILITY

QUALIFICATIONS

Minimum Experience and Training Requirements:

- Successful completion of the Civil Engineer Trainee training program (commonwealth title); **or**
- Four years of civil engineering experience in the appropriate specialty, and an engineer-in-training certificate issued by or acceptable to the Pennsylvania State Registration Board for Professional Engineers, Land Surveyors and Geologists, and an associate's degree in civil engineering technology or a closely related engineering discipline; **or**
- One year of civil engineering experience in the appropriate specialty, and a bachelor's degree in civil engineering or a closely related engineering discipline; **or**
- Five years of civil engineering experience in the appropriate specialty, and an Engineer-in-Training certificate issued by or acceptable to the Pennsylvania State Registration Board for Professional Engineers, Land Surveyors and Geologists.

Special Requirement:

- This position requires possession of a valid Class C Driver's License.

Condition of Employment:

- You must currently reside in or are you willing to relocate to Bradford, Carbon, Centre, Clinton, Columbia, Lackawanna, Lehigh, Luzerne, Lycoming, Monroe, Montour, Northampton, Northumberland, Pike, Potter, Snyder, Sullivan, Susquehanna, Tioga, Union, Wayne, or Wyoming County.

Other Requirements:

- You must meet the [PA residency requirement](#). For more information on ways to meet PA residency requirements, follow the [link](#) and click on Residency.
- You must be able to perform essential job functions.

How to Apply:

- Resumes, cover letters, and similar documents will **not** be reviewed, and the information contained therein will not be considered for the purposes of determining your eligibility for the position. Information to support your eligibility for the position must be provided on the application (i.e., relevant, detailed experience/education).
- If you are claiming education in your answers to the supplemental application questions, you must attach a copy of your college transcripts for your claim to be accepted toward meeting the minimum requirements. Unofficial transcripts are acceptable.
- Your application must be submitted by the posting closing date. Late applications and other required materials will not be accepted.
- **Failure to comply with the above application requirements may eliminate you from consideration for this position.**

Veterans:

- Pennsylvania law (51 Pa. C.S. §7103) provides employment preference for qualified veterans for appointment to many state and local government jobs. To learn more about employment preferences for veterans, go to www.employment.pa.gov/Additional%20Info/Pages/default.aspx and click the Veterans' Preference tab or contact us at ra-cs-vetpreference@pa.gov.

Telecommunications Relay Service (TRS):

- 711 (hearing and speech disabilities or other individuals).

If you are contacted for an interview and need accommodations due to a disability, please discuss your request for accommodations with the interviewer in advance of your interview date.

The Commonwealth is an equal employment opportunity employer and is committed to a diverse workforce. The Commonwealth values inclusion as we seek to recruit, develop, and retain the most qualified people to serve the citizens of Pennsylvania. The Commonwealth does not discriminate on the basis of race, color, religious creed, ancestry, union membership, age, gender, sexual orientation, gender identity or expression, national origin, AIDS or HIV status, disability, or any other categories protected by applicable federal or state law. All diverse candidates are encouraged to apply.

EXAMINATION INFORMATION

- Completing the application, including all supplemental questions, serves as your exam for this position. No additional exam is required at a test center (also referred to as a written exam).
- Your score is based on the detailed information you provide on your application and in response to the supplemental questions.
- Your score is valid for this specific posting only.
- You must provide complete and accurate information or:
 - your score may be lower than deserved.
 - you may be disqualified.
- You may only apply/test **once** for this posting.
- Your results will be provided via email.

QUALIFICATIONS

Minimum Experience and Training Requirements:

- Four years of civil engineering experience, and an Engineer-in-Training certificate issued by or acceptable to the Pennsylvania State Registration Board for Professional Engineers, Land Surveyors and Geologists; **or**
- A bachelor's degree in civil engineering, or in a closely related field, which includes or was supplemented by major course work in civil engineering; **or**
- An equivalent combination of experience and training which includes possession of an Engineer-in-Training certificate issued by or acceptable to the Pennsylvania State Registration Board for Professional Engineers, Land Surveyors and Geologists.
- Applicants will be considered to have met the educational requirements once they are within three months of graduating with a qualifying degree.

Other Requirements:

- You must meet the PA residency requirement. For more information on ways to meet PA residency requirements, follow the link and click on Residency.
- You must be able to perform essential job functions.

How to Apply:

- Resumes, cover letters, and similar documents will **not** be reviewed, and the information contained therein will not be considered for the purposes of determining your eligibility for the position. Information to support your eligibility for the position must be provided on the application (i.e., relevant, detailed experience/education).
- If you are claiming education in your answers to the supplemental application questions, you must attach a copy of your college transcripts for your claim to be accepted toward meeting the minimum requirements. Unofficial transcripts are acceptable.
- Your application must be submitted by the posting closing date. Late applications and other required materials will not be accepted.
- **Failure to comply with the above application requirements may eliminate you from consideration for this position.**

THE POSITION

The Pennsylvania Utility Commission (PUC) has an exciting opportunity in the Bureau of Investigation and Enforcement's Pipeline Safety Division for a Fixed Utility Valuation Engineer I (FUVE I) position in its **Southeastern PA Region: Berks, Bucks, Chester, Delaware, Lancaster, Montgomery, and Philadelphia counties**. This is an entry-level position within an engineering staff of the Bureau of Investigation and Enforcement performing Operational Compliance Inspections (OCIs), Reportable Incident Investigations (RIIs), Non-reportable Incident Investigations (NRIIs), and Emergency Action Implementation Reviews (EAIRs). An employee in this job performs a variety of pipeline safety engineering work assignments that require the interpretation and application of standard engineering techniques, procedures, and guidelines, using engineering judgment in determining whether compliance with regulations has been achieved.

Apply today and become a part of our dedicated and valued team!

DESCRIPTION OF WORK

This is an entry-level position within an engineering staff of the Bureau of Investigation and Enforcement performing Operational Compliance Inspections (OCIs), Reportable Incident Investigations (RIIs), Non-reportable Incident Investigations (NRIIs) and Emergency Action Implementation Reviews (EAIRs). This position is responsible for the enforcement of the Public Utility Commission laws and pipeline safety rules and regulations of the Commission and the U.S. Department of Transportation as they apply to the pipeline operators under the jurisdiction of the Public Utility Commission. The person in this position works as a team member under the direction of senior engineering staff and supervisors in the reviewing, reporting, and inspection of operational compliance of operation plans, procedures, and engineering operations of public utilities and other pipeline operators.

An employee in this job performs a variety of pipeline safety engineering work assignments that require the interpretation and application of standard engineering techniques, procedures, and guidelines, using engineering judgment in determining whether compliance with regulations has been achieved. Work will be completed under the direction of the supervisor or senior engineering staff performing preliminary pipeline safety investigations. The employee shall draft an inspection report with findings and recommend further action steps needed by the utility to achieve compliance. Work is reviewed in-progress and upon completion for technical adequacy, completeness, overall quality, and attainment of objectives.

Work Schedule and Additional Information:

- Full-time employment
- Customized work schedules are 7.5 hours between 7:30 AM and 5:30 PM, Monday-Friday, with a 30 or 60-minute lunch.
- This position requires moderate travel (including overnight travel).
- A state vehicle and all personal protective equipment (PPE) will be provided.
- Opportunities for career advancement based on experience and job performance.
- This is a home-headquartered position and will be responsible for the **SOUTHEASTERN PA REGION: Berks, Bucks, Chester, Delaware, Lancaster, Montgomery, and Philadelphia counties.**
- **Salary:** In some cases, the starting salary may be non-negotiable.
- You will receive further communication regarding this position via email. Check your email, including spam/junk folders, for these notices.

REQUIRED EXPERIENCE, TRAINING & ELIGIBILITY

QUALIFICATIONS

Minimum Experience and Training Requirements:

- One year as a Fixed Utility Valuation Engineer Trainee; **or**
- One year technological engineering or valuation engineering experience involving the operation of a public or private generation, collection and distribution system, or related experience with a public utility, public utility regulatory agency, or as a consulting engineer in related work; and a bachelor's degree in engineering or engineering Technology specifically related to-construction and design of generation, collection and distribution systems; **or**
- Any equivalent combination of experience or training. A master's degree in engineering will be acceptable in lieu of the one-year's technological experience.

Conditions of Employment:

- You must reside in or be willing to relocate to Berks, Bucks, Chester, Delaware, Lancaster, Montgomery, or Philadelphia county within 6 months.

Other Requirements:

- You must meet the [PA residency requirement](#). For more information on ways to meet PA residency requirements, follow the [link](#) and click on Residency.
- You must be able to perform essential job functions.

How to Apply:

- Resumes, cover letters, and similar documents will **not** be reviewed, and the information contained therein will not be considered for the purposes of determining your eligibility for the position. Information to support your eligibility for the position must be provided on the application (i.e., relevant, detailed experience/education).
