

***** NOTICE – CITY ALLEY SERVICES *****

Warm, wet conditions have made snowplowing of unpaved alleys unfeasible. Any equipment operations would result in significant and costly damage to the alleys. Due to this, the City is asking property owners to consider parking on the street until conditions improve.

The City is also suspending alley services for the next three weeks, effective immediately through **May 4**. This includes services for Garbage, Compostables and Recyclables. Bins for those services will still be serviced if the bins are placed on the front or side streets. The bins will not be serviced in the alley. This applies to all alleys shown in the attached map, whether paved or unpaved.

Spring Cleanup scheduled for April 20

The City-wide spring cleanup will not service alleys due to the poor conditions. Property owners must set any items for pickup on the front or side street.

A map has been included on the backside identifying all affected areas.

Any questions regarding garbage/compost/recycling pickup can be directed to the City's Utility Billing department by calling (320) 234-5672. Questions regarding the alley conditions can be directed to the City's Public Works Department at (320) 234-4219 or by using the report-a-problem feature on the City's website. We apologize for the inconvenience.
