**Special Notes for Victaulic Fittings:**

- 1 The insulation thickness for Victaulic Elbows and Tees are normally only made one way. Our method of fabrication covers both the fitting and the clamp.
- 2 The PVC OD's listed on the Table indicate insulation thickness.
- 3 If larger OD's are desired, they are available upon request and will cause the list price to be adjusted proportionately.
- 4 The insulation is compatible PIC plastic.
- 5 2 caps are required for 90's and 45's.  
3 caps are required for tees.
- 6 **See Table 21 for Victaulic Couplings**
- 7 Style and or model numbers are required for fittings and clamps.
- 8 Please designate manufacturer if it is not Victaulic.
- 9 If you order insulation from another fabricator, our PVC may not fit. PIC makes special PVC fittings for our fabrication specs.

\*PVC for 16.0 is 4-1/2" X 5-1/2" LR 90

\*PVC for 18.0 is 5" X 6" LR 90
