PROLOGUE

When an IDF Soldier Goes To Mars

Odyssey of the 1st Humans on the Red Planet

The purpose of this Book is to present a Thrilling Full Length, Science Fiction Storyline about the Adventures of several Human Astronauts and their A.I. Android who travels to Mars in Script Format. There are 2 Astronauts that are former Israel Defense Force IDF Soldiers. The Ultimate Mission of the Teams being sent to Mars, is to establish a Permanent Human Colony. The 1st Couple fly their Spacecraft called the 'Cydonia 1'.

They will confirm, if indeed there is Life on Mars, Water, Oceans and if Ancient Pyramid Civilizations ever existed on Mars. This Piece of Work, presented in Script Format, was largely composed by using the latest Online A.I. Open-Source Software, ChatGPT by Chat.OpenAI.com. This Novel will be perhaps, at the Time of Publication, 1 of the 1st Full Length Science Fiction, A.I. Generated Books ever Published, if not the 1st to be mostly written by A.I., as one prompted it, based on one's intended Storyline.

All the Graphics, with some Editing were also done by using DALE-E A.I., that Generated the Artwork Online. DALE-E is also hosted by Chat.OpenAI.com. Since its release to the Public Domain, ChatGPT, especially the December 15, 2022 Version, has taken the World by Storm.

In less than 55 Days of its release, Microsoft invested \$10 Billion U.S. Dollars into the Program. In one's Opinion, ChatGPT is a 'Gutenberg Press' Moment in History. It will change the Course Human interaction with A.I., Artificial Intelligence forever. This is only the Beginning. What was the 'Gutenberg Event?' During the Dark Ages in Europe, the Roman Catholic Church had a stranglehold on the Illiterate Masses. And they wanted it to be kept that way.

For example, it was Forbidden to have any Common Folk Read and/or Interpret the Bible for themselves. Why? The Bible was and is Revolutionary. It talks about what is 'True' and teaches about 'Freedom', Humanity's Problems, Reactions and Solutions, etc. It was not until the Protestant Reformation that People started to Print the Bible in their own 'Vulgar' or Common Dialect, i.e., German. This was their 'ChatGPT' Moment, due to the Invention of the Printing Press. Once the Press was duplicated, it took the World by Storm, as ChatGPT is doing now.

Many Sociologists, Historians and Political Scientists, among many more Academic Disciples, argue that the Gutenberg Printing Press created Venues of Disseminating Information that led to the Enlightenment. And as Francis Bacon stated, 'Information is Power', etc. Perhaps as of this Publishing, originally in January of 2023, this Book is the 1st ChatGPT, Full-Length Science Fiction Book ever created by A.I. What is ChatGPT? ChatGPT is a large Language Model, trained by Open AI that is able to generate Human-Like Text, based on the Input it is given.

WHAT IS ChatGPT?

Artificial Intelligence A.I.

It can be used for a variety of Natural Language Processing Tasks such as Language Translation, Question Answering, and Text Summarization. The Storyline is about the Cydonia Human Colony on Mars, but the Script does borrow heavily from Biblical Personages and Current Geo-Political Events. Fair Warning.

Thus, this Full Length Science Fiction Book, about going to Mars will be Biblically Contextualized for a Space Odyssey to the Red Planet. The ChatGPT wrote about 70% of the Script. The Reason is that, as the Ending borrowed heavily from the Parallelism of the Book of Revelation, the A.I. Prompt stopped at that Juncture. This was due to it not wanting or allowing it to be Prompted any further based on the Apocalyptic and Biblical Subject Matter.

According to Wikipedia (With Emphases), ChatGPT stands for 'Chat Generative Pre-Trained Transformer. It is a Chat-B that is based on Algorithms and was launched by OpenAI in November of 2022. It is built on top of OpenAI's GPT-3 Family of large Language Models. It is developed, based on what is called a 'Fine-Tuned'.

It is an approach to Transfer Learning that uses both Supervised and Reinforcement Learning Techniques. ChatGPT has quickly garnished Worldwide Attention for its Detailed Responses and Articulate Answers, across many Disciples of Knowledge.

It is stated that OpenAI continues to gather Data from ChatGPT Users that will be used to further 'Train' and 'Fine-Tune' ChatGPT. Users are allowed to Up-Vote or Down-Vote the Responses they receive from ChatGPT. Users can also fill-out a Text Field with Additional Feedback.

Following the release of ChatGPT, OpenAI is valued at \$29 Billion U.S. Dollars. The Headquarters of OpenAI is currently in the Pioneer Building, San Francisco. Sam Altman, as of this Write-Up is the CEO of OpenAI.
