### **Vision for Classroom/Relationship with Students:**

I want my students to feel like a family in the classroom, where they are safe, loved, and respected. I like parents to be involved in classroom activities and events. I desire my students to grow both academically and spiritually and to demonstrate use of Biblical teachings in daily situations.

### **Testimony:**

I grew up in a Christian household where I was read and taught the Bible. My family regularly attended church. When I was in the eighth grade, I was confirmed and stated my profession of faith and I accepted the Lord as my Savior.
