WELCOME BACK TO OUR QUARTERLY PRINT!

Let us happily guide you on a walk upon our church's journey with *The Compass*

This quarter at the Church of San Ysidro, we focused on themes where

We Serve Our Neighbor!

Our brother, Ivan Chavez, has diligently led us into exploring topics such as *exile, humility, teamwork, battles, sin, and servitude.*

In our children's ministry, *Kids Alive*, Pastor Johnny has been introducing to them and encouraging CSY's main culture of

"Give Worship, Get Word, and Go Walk"

Finally, we wouldn't want to pass this opportunity to recognize some of our church's collective accomplishments! We want to *continuously express our gratitude* towards the Lord for the opportunities and blessings he has given CSY thus far:

We have proudly been growing in number, with consistent attendance, both in our *weekly gatherings*, and our health and wellness program known as, *The Race*.

CSY has also assembled their **Leadership Team** and have been devotedly working together to deliver weekly services that represent our model of simplicity and desire to *walk in the footsteps of Jesus.*

As a church we are glad to have you all be a part of our family. Stay tuned to see what CSY is embarking on next, and we are looking forward to seeing you join us!

A Note From Our Pastor...

Vision: what is it? Well first, let's explain this: having dreams are important. Dreams provide a *vision* where we'd like to be in an ideal future. **Do you have a dream?**

Dreams are important because they have a way of getting us *to move*. For example, because a little boy envisions himself as a doctor, he puts himself through about eight years of medical school. Likewise, when God wanted to get His people to walk a desert, He simply gave them a dream of **a land that flows with milk and honey**. And that is all it took! They walked...and for 40 years straight! That's the power of a dream. A church's dream is called a '*Vision*'. At CSY, this is our dream:

We aspire to be a compass to the people of San Ysidro and its surrounding communities. We want to guide others to Walk to Jesus, Walk with Jesus, and Walk Like Jesus
