CLEAN EATING / THIS IS NOT GLUTEN FREE

The Paleo Diet is an effort to eat like we used to back in the day; a few thousand years ago as cavemen. When humans discovered farming, we advanced from hunter-gatherers to farmers.

The Problem is that our bodies never adjusted properly to eating all the grains that we are now farming .

The Paleo diet is an effort to go back to how we are biologically designed to eat to allow us to tap into our genetic potential and start living healthier immediately... Enjoy!
