

Program Management

SOLUTIONS

n-Link provides solutions built on efficient and effective team management; executing activities across projects and programs. Our business process improvements and re-engineering are accomplished by PMP certified and Six Sigma certified program and project managers with extensive management experience with large and small projects.

Our methodologies and practices prioritize efficiency; improve visibility of performance across tasks: increase productivity; and minimize redundancies to reduce costs while ensuring quality deliveries.

CAPABILITIES

Our practices are built on:

- ✓ Mature, streamlined, and repeatable processes and tools
- ✓ ITIL and SETA certifications and experience
- ✓ Mature PMO best practices & strategic planning
- ✓ Risk management expertise
- ✓ Cultural transformation leaders
- ✓ Project Management Book of Knowledge (PMBok)
- ✓ Earned Value Management (EVM)
- ✓ Six Sigma principles

CUSTOMERS

Department of Health and Human Services Federal Occupational Health (FOH)

Since 1999, *n*-Link managed day-to-day operations using technical processes necessary to meet complex business requirements.

Department of Commerce

n-Link program management encompasses operations, systems development, and special project components. We tailor our ITIL and PMI processes delivering cost-effective IT solutions and ensuring program component transparency.

CASE STUDY

For U.S. Army Corps of Engineers, *n*-Link Project Managers implemented common solutions that created mature and streamlined repeatable processes and templates to effectively increase productivity, reduce work cycle time, and improve repeatable activity visibility. We led cross-organizational teams with a mix of 30+ full-time employees across multiple locations to assist agency Project Managers with implementing best practices, ensuring alignment with the Federal Enterprise Architecture governance model, and mentoring and training of agency development teams.
