

2018-2019 CAMP NEEDS LIST

1. **Vacuum Cleaners;** The camp needs Three commercial grade Vacuum Cleaners. Approx. Cost each--\$225.00/\$275.00 each **Or**

One Wide area Vacuum -- \$1,350.00/\$1,700.00

This is a major need for vacuuming the Activities building

2. **Free Standing Outdoor Drinking Water Fountain**

Approx. cost \$568.75/\$676.14

This fountain is to replace the broken fountain located at the Arts and Crafts Building. Old Fountain can not be repaired.

3. **Commercial Size Washer and Dryer**

Approx. cost \$1,000.00 ea.

Last year we replace a washer and dryer that had stopped working.

The camp has had another dryer stop working and needs a new one. Current washers and dryers were refurbished used laundromat appliances. These machines are used regularly during camp season and by rental groups.

4. **Water Filtration System**

Drinking water filtration system; for cooking and drinking

I personal recommend a Berkey Filtration System. Unit is portable and can be stored so it is only used for camp functions. We use a 2.5-gallon system at home and have been using it here at the camp for the past seven years. We have never changed the original Blackberry Purification Elements. I just remove and clean them periodically.

I recommend the camp purchase one maybe two Crown Berkey's. the units come with two elements each and will produce up to 6.5 gallons of pure water per hour. If we increase the elements to four you can double the water purification per hour.

No more sulfur taste, removes iron also. You can place common waste water in the unit and the purified water will be safe to drink. If power goes out, unit still works. Gravity fed system.

This unit cost \$375.00 – two filters -- \$425.00 – four filters

Sometimes they have scratch and dent items and you could save \$50.00

No more bottled water would have to be purchase

5. Water Filtration System

Camp also needs to investigate a filtration for water going to all buildings. High amounts of iron in water. If you have ever visited the camp and been to the Memorial Garden, you will know what I mean about the high iron.

6. Commercial Size Pressure Washer

Est. Cost-\$850.00 plus taxes

Camp is on it's 5th pressure washer in the past eight years. The Lowes and Home Depot brands are not designed to handle large jobs such as we have here at the camp. They are great for a home owner. These machines are around \$229.00 to \$299.00 each (Bad about their pumps leaking)

7. An extension wand for the pressure washer.

Est. cost \$150.00

8. Industrial Mixer for the Kitchen.

Est. cost \$400.00

We currently have to use a hand mixer or borrow an electric mixer

9. Upright Freezer for Kitchen

Est. cost. \$450.00

One of our Freezer stopped working just before summer camp. This freezer helps store foods that are quickly needed for use. Chest freezers are usually filled with large frozen food items. Turkeys, hams, et.

10. Work Machine such as a Kubota 900 RTV Diesel Engine.

Nothing smaller will do the work needed.

Est. Cost New- \$14,000.00 With Proper upkeep and Maintenance this machine would last the camp 15 to 20 years

All the Maintenance clean up is done with our camp gas powered golf carts. They are not designed for this type of use.

Life expectancy for our golf carts- 6 years – we have had ours for 7. They have been good carts.

11. Sound and Video System with retracting video screens for the Activities Building

Cost would be anywhere from \$5,000.00 to ?,??????

This is a need that will help us here at camp and be an additional selling point to others who may want to rent our facility.

12. 6 rocking chairs to be distributed to the Arts and Crafts Building and the sitting area at the Activities building

Est. cost \$125.00 ea.

13. Mower Deck for the Zero Turn will have to be replaced before next year.

Est. cost - \$2,300.00

(Mower may need replacing within the next couple/three years.)

Cost \$8,500.00 to \$10,000.00

14. Floor Buffing machine

Est. Cost \$340.00/\$500.00

Machine is needed for cleaning and waxing floors in dining hall

**15. Furniture for Main dorm foyers – 2 couches – 1 single seat/ottoman
needed for each side of dorm**

Est. cost \$2,500.00 +

16. 2 Couches for Bunkhouse Dorm

Est. Cost \$500.00 each
