

DEAR SHOOTERS, SPONSORS AND KO2M SPECTATORS

Just a quick note to help you coordinate your travel and your KO2M preparations. As you already know the Competition will be held at NRA Whittington:
Setup day is July 1st. and competition is July 2nd,3rd and 4th of July.

July 1st - SETUP DAY

Shooters and sponsors don't need to be at the range on setup day, but it might be convenient for them

The Ko2M crew will be setting up the targets and once done, **we will post the LRF measured ranges to the targets the afternoon of July 1st in the Eagle Nest shack panel as we have done in previous edition.**

Due to safety reasons with the new 2 Mile target location to be shot in the Finals day (July 4th) **the tents and canopy area will NOT be located in the firing line** but on the right side of the parking area. A map will be posted in the Facebook page and on the Eagle Nest panel wall. There will also be somebody from the KO2M around to help you out setting up your tent in the right and safe location.

The afternoon of July 1st (Setup Day) we will have somebody at the Eagle Nest office to help with the waivers, paperwork and weighting of rifles. It is NOT compulsory to do these during setup day, but if shooters do it will speed up the start of the shooting the first day and reduce their own stress.

JULY 2nd - QUALIFYING DAYS

REGISTRATION AND SHOOTERS MEETING

Sunrise is around 06:00 (6am)

06:30 (6.30am) We will open the Eagle Nest for waivers signing, paperwork and weighting of rifles.

7:30 (7.30am) Compulsory Shooters meeting

**We will cover all the practical aspects of the 2018 KO2M
And how the shooters list will be split for the two days of shooting**

Just after it, there will be a random draw with all the shooters registered and the shooters positions will be posted in the Eagle Nest wall so they can start their make preparations.

08:00 - We will start shooting as close as we can to, but not sooner than 08:00 (8am)

All shooters should be ready to start shooting ASAP after the random draw as they can be one of the first teams shooting. Those not present might be pushed to the end of the list.

JULY 3rd - QUALIFYING DAYS

Sunrise is around 06:00 (6am)

07:30 (7.30am) Daily shooters safety briefing, compulsory for those teams shooting this day

07:40 - Just after the briefing we will start shooting with the second day's shooting teams, after the targets are checked and batteries changed, NOT before 07:40 (7.40am)

Just after all teams have shot and we process their performance, we will publish the Finalists list in the Eagle Nests wall.

The order of shooting will be the shooter's placement on the scores
, first positions shoot the first.

JULY 4th FINALS

Sunrise is around 06:00 (6am)

07:30 (7.30am) Daily shooters safety briefing, compulsory for those Finalist teams

07:40 - Just after the briefing we will start shooting with finalist teams from the right side of the firing line on a steep angle to the mountain

IMPORTANT

On the finals day we have to enforce a strict safety sector that will preclude any shooter or equipment inside the line from the firing position (firing positions 97 -100) to the poles and continuing to the road. That limitation will be clearly marked and guarded by a RO.

This is the reason to have the tents and canopys placed in a different location that in previous years.

Just after all the Finalists have shot we will process their scores and ASAP publish the 2018 KO2M final standings , at the Eagle Nests wall.

Just after the final standing is published we will start the awards ceremony.

End of instructions
