Over the years, Crawl 4 the Cure has raised more than \$1.2 million to help find a cure for MS. The annual banquet and fundraiser is often attended by more than 400 attendees who are all committed to raise money and awareness.

"We've supported Crawl 4 the Cure from the very beginning. Each year we look for ways to make even bigger commitments that will ensure the event is successful," said Paul Skrbec, managing owner of West Forty RV Park & Campground. "The people who come to Gilbert every 3rd week of July to participate in the Crawl are great examples of the kindness and compassion of the off-roading community each year. It's one of our favorite events of summer."

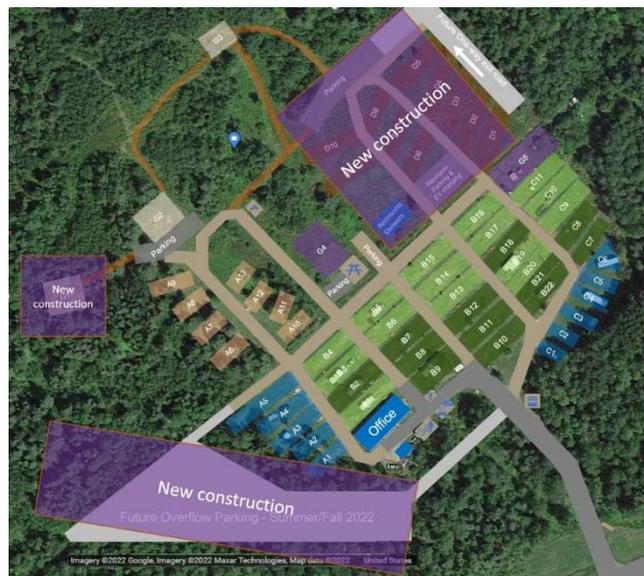

This year, the campground has committed 10 percent of its revenue from campsites, firewood/ice sales, camp store sales and rental items which will result in a significant increase to its annual sponsorship.

## Campground expansion

During the 2022 and 2023 camping seasons, West Forty RV Park & Campground will add 11 new campsites and a new restroom/shower building to better serve capacity/lodging demands in Gilbert.

- Campsites D1-D5 and D9-D10 will each be 75'x40' in size - 30 percent larger than state regulations - with 50-amp electric and full water/sewer hookups.
- Sites D6-D8 will be 60'x40' in size with 50-amp electric and full water/sewer hookups.
- Site G1 will be a rustic, group tent site that will have the capacity of up to 4 tents and will be designed as a 'walk-in' or 'ATV-in' only site in a secluded area surrounded by trees.
- The new restroom/shower building will feature separate restrooms for men, women and a unisex/family restroom plus three individual shower rooms. The unisex/family restroom will also include a shower and is being built to ADA-compliance standards.

West Forty RV Park & Campground currently has 25 RV/camper sites, 4 tent sites and 4 group sites which are available for this year's event. The campground expansion is expected to provide an additional, two (2) 50-amp full hookup sites, one (1) group tent site and five (5) 50-amp, no water/sewer sites by July 14. The remainder of sites at the campground are dedicated to seasonal guests.
