November 16th, 2017

Meeting began at 7:00pm

Motion made to accept the minutes. Motion Passed. Small edit to remove random date from the top of the page. Actual date is in the minutes body.

Discussion of the 1,3-7 plastics issue. TOMRA currently doesn't have a market for the 1, 3-7 plastics. Sullivan's wants to charge \$75 a ton to haul the material to EcoMaine. They are aware we have been sending material in their trucks and would like to charge back to July 2017 for that service. The glass as well will need a hauler. We will continue to negotiate with Sullivan's.

Motion made to pass the budget. Motion passed.
