We parents from the five boroughs are demonstrating today for the mayor to fire Chancellor Carranza.

Corruption, Cronyism and Racism are the hallmarks of Carranza's reign. Like a modern day cross between Boss Tweed and Bull Connor, he has seamlessly wedded graft and racial division. He has enriched cronies and connected contractors while simultaneously opening figurative fire hoses on poor immigrant Asian children. What he has not done is anything to improve the education of New York City children.

- He has created an atmosphere where ethnicity is everything and merit is verboten.
- His racism hurts children of every race.
- He pits poor children against each other.
- He has pushed policies and rhetoric which are harmful and demeaning to Asians.
- He has made 'equity' a codeword for pushing children down.
- He hires based on race, he instructs our teachers to judge their students by race.
- By focusing on race, he attempts to cover up his failing schools where grade fraud is pervasive.
- He answers any criticism whether from parents or politicians with charges of racism.
- He allows hundreds of thousands of kids go hungry by not promoting the Summer Meals Programs. DOE's website has conflicting or minimal information on where kids to go eat during the summer.

His trail of destruction passed through San Francisco and Houston before assaulting the children of New York City. We need a unifying educator, not a divisive, race-obsessed chancellor. We called on Mayor de Blasio to immediately fire Chancellor Carranza before he can cause any more damage to our children.
