

For Your Lower Back

SETS/REPS: To Fatigue

HOLD: 8sec

REST: 30sec

4X PER WEEK

Curl Up

- Place your hands under your low back to preserve a neutral spine. Do not flatten your back to the ground. One leg is bent, but the other remains straight.
- Raise your head and shoulder up from the ground. The motion occurs from your thoracic spine, not the cervical or lumbar.
- Hold for 8 seconds, then lower. Switch which leg is bent for every other rep.

SETS/REPS: To Fatigue

HOLD: 8sec

REST: 30sec

4X PER WEEK

Half Side Bridge

- Bridge the torso between the elbow and the knees.
- Lay on one side with knees bent, elbow directly under shoulder.
- Keep knees, hips and shoulders in the same plane.
- Raise your hip up off the floor, avoiding forward or backward rotation.

SETS/REPS: To Fatigue

HOLD: 8sec

REST: 30sec

4X PER WEEK

Quadruped Cross Crawl (Bird Dog)

- Start on your hands and knees. Maintain a neutral flat back. Brace with your abdominal muscles.
- Slowly sweep one leg behind while at the same time extending the opposite arm in front, until both are parallel with the floor.
- Sweep them back in; repeat switching sides.
