PROJECT EXAMPLES

CASE 1: Commercial Surety Bonds – Highly Skilled Team Provided

We understand commercial contracts can include complex structures and provisions based on a variety of industries. Each situation is different and we have the insurer relationships to find the appropriate level of protection based on quality of credit, not only size of balance sheet.

CASE 2: Annual Insurance Review

Property and Casualty client with multiple projects and multiple locations struggle to keep track of all insurance needs at each location impacting scheduled payments and opening possibilities for underinsurance or inefficiencies. Review current coverage. Quote multiple carriers and present options in a timely manner.

CASE 3: Employee Benefits Coverage Overhaul – Client Saves Over 20%!

Review of expiring coverage, quoting with multiple carriers. Selection of new plan including new insurance carrier, new plans with lower deductible, added benefits and overall lower cost to employer and employees. Client saved over 20%.

CASE 4: Insurance Compliance & Subcontractor Verification

Provided dedicated personnel to support insurance compliance by client and its subcontractor. With hundreds of insurance certificates required for prompt payment, our support allows clients to concentrate on their core competency while we make sure certificates are in place so payments flow without delay. Helped client with subcontractor insurance compliance so coverage is in agreement with contracts.
