

The Friendship Song

Group unison:

(Intro)

You are still my friend, now and 'til the end. Even if we disagree, you are still my friend.

You are still my friend, now and 'til the end. Even if we disagree, you are still my friend. :|

(continuous round under solo voice)

Solo voice:

Sometimes you make me mad, but losing you as a friend would make me sadder

Just give me a little time to think it through, so we can talk and make it better

You're my friend, you'll always be my friend, and I will always be here from now until the end

You're my friend, you'll always be my friend, and I am always here for you from now until the end

Group Harmony:

(2nd)

I will tell you how I feel, you will tell me how you feel, and together we will talk it out until the pain is healed.

I will tell you how I feel, you will tell me how you feel, and together we will talk it out until the pain is healed.

(3rd)

I will never use friendship as a weapon; I will never tell you that I will not be your friend.

I will never use friendship as a weapon; I will never tell you that I will not be your friend.

Solo voice:

You are still my friend from now until the end. You'll always be my friend.

Group unison:

(Outro)

You are still my friend, now and 'til the end. Even if we disagree, you are still my friend.

You are still my friend, now and 'til the end. Even if we disagree, you are still my friend.
