From the rugged beauty of the Andes to the crystal waters along the coast, to the endless green of the Amazon, Peru's landscape offers many worlds in one. Settled by Norte Chico, the oldest known civilization in the Americas, it has been home to ancient Inca kings and Spanish conquerors. Today, Peru's culture remains colorful and diverse.

Program Highlights

- **Accompanying guest program** – alternate activities will be provided for those who do not wish to attend the meetings.
- **Optional** pre-program extension to the **Amazon Rainforest**

Focus on healthcare

- Meaningful **interaction and collaboration** between travelers and healthcare professionals in Peru will focus on the greatest challenges facing Peru today in their speech-pathology and audiology services. Spend time meeting with various caregivers in various settings in **Lima, Cusco and the Ollantaytambo region**.
- Visit with facilities like the **Ann Sullivan Foundation** that is dedicated to the education and service to people with different abilities (such as autism, Down syndrome, cerebral palsy, or developmental delay), and their families.
- Participants in this journey will not only **enhance their understanding and appreciation of the culture**, creed, beliefs, language, geography, government, politics, economics, and history of the Peruvian people, but they will appreciate the rich diversity of individuals treated.

Focus on the community

- Giving back and engaging with the local community is an important part of any journey. Spend time in a **rural village** interacting with the local families.
- During your visit to the Sacred Valley, visit **Ollantaytambo Medical Center** as well as **Sacred Valley Health** to learn about their programs and outreach they do to the rural community in this region. Discuss the issues the community faces with accessing care in this region and how these organizations help.
