

# Happy Love

You hide away  
In the shade, but  
I want to see your eyes  
What they say  
'Cause they showed me  
About love

There's a place  
Where everyone's happy  
No bad, no sad  
And I want to take you there

Riding on the winds of a kiss  
I have known and I have loved this  
And more and more and more

Call you happy  
Call you lovely  
Call this something  
This, our happy love
