In the past two days I have received four compliments about your work. Commander Edmunds from MACV called to say how much he liked "Sunrise In Saigon"; a Lieutenant Hale called from the Delta to say that he enjoyed our early morning FM show; a Doctor Finley called from Long Binh to say that he liked "Sunrise"; and Chief Seeger commented today on the job you do daily on the FM monster.

Discarding the idea that you've been paying people to call in, I think the calls and the Chief of Engineering's comments are quite an honor. For the Broadcast Operations Section, may I add my personal thanks for a continuing professional performance.

ALAN W. FRANK
