

Commercial Mower Hitch & Attachment Series

Quality, Functionality and Satisfaction D'ttach Attachment Series has you Covered!

Whether you mulch or bag your grass clippings, the D'ttach™ Dethatcher can be used throughout the growing season as a professional grade tool to control thatch build up and reduce the chance of turf grass disease.

The D'ttach™ Dethatcher is constructed with heavy duty u-shaped spring tines which lift embedded leaves, twigs and thatch without damaging healthy grass. It also combs matted grass providing the lawn with a clean, raked look. The D'ttach™ Dethatcher is also the perfect tool for fall lawn renovations, when used to surface aerate the soil to promote root development for a healthier and thicker lawn. Use the D'ttach™ Dethatcher during seeding operations to sow in seed and accelerate germination. Finally, use the D'ttach™ Dethatcher for the last mowing of the fall, leaving a well groomed, clean lawn.

With our patent pending, telescopic hitch bar (sold separately), attaching to most commercial stand on and riding zero turn mowers is made easy.

D'ttach™ Dethatcher is available in Four Sizes to accommodate most commercial mowers.

DT134 (34") 32"-36" Mower

DT140 (40") 42"-48" Mower

DT146 (46") 48"-52" Mower

DT152 (52") 52"-Up Mower

It is recommended that the dethatcher size be less than that of the mower cut to insure proper bagging.

Warranty 90 day limited warranty, 1 yr structural warranty

The D'ttach™ Dethatcher quickly attaches and "d'ttaches" from your commercial mower in seconds! The D'ttach™ dethatcher is constructed to endure the high demands of a professional landscaper with heavy duty materials. Its sleek design eliminates the need for cumbersome castor wheels and intrusive lift handles and cables. Quality combined with efficiency equates to saving time and money and being more productive with your power equipment.
