English

Reading

- Bugclub – read the texts and answer the questions online.

Writing Challenge

- Balanced argument – the pros and cons of being at school compared to home-learning.
- Using the title above can you write a balanced argument that discusses both the positives and negatives to learning at school as well as the positives and negatives to learning at home? It is important to remember to clearly structure your ideas and use evidence to support your reasons. Also remember, you don't have to actually believe what you are writing but still use those ideas to enhance the amount of reasoning going into each part of the argument. Don't forget to write an introduction and a conclusion!

Spellings

- Try some of these spelling activities.
