

Reshaping Futures. Launching Careers.

Future:Youth™

EDUCATION CENTER

Can we count on you, too?

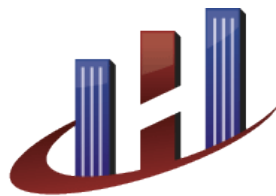

Your generosity, along with the generosity of the community partners thus far, will make it possible to create an Education Center that will provide opportunity & hope for vulnerable teens in South Florida. The teens will improve the health of their mind, body and spirit, learn to be self-sufficient and independent, and receive the education, trade skills, and professional development that will put them on the road to success.

Your investment will have the power to radically reshape their futures!
