

# **\*NOTICE\***

**To:** Thessalon First Nation Community Members

**From:** Thessalon First Nation Chief & Council

**Date:** March 1, 2019

**Re:** **SNOW REMOVAL**

---

This notice is to clarify the misconception that community members may have regarding snowplowing of driveways for members aged 50+, that it is the responsibility of the band.

Please be advised the First Nation does not receive any dollars to assist in the plowing of driveways. It was a service (privilege) the public works department was able to provide in the past.

Due to the increase of residents aged 50+ we are unable to continue in assisting everyone. Only those elders who are in great need will continue to have their driveways plowed when time permits.

Prior to the plowing of any driveways, the priority for the public works department will be the main roadways and community buildings to ensure safety of all members.

Please ensure alternate arrangements are made for snow removal in the event the public works department is unable to accommodate the plowing in a timely manner.

Thank you
