CARING FOR CHICKENS IN THE WINTER

Eco Flake shavings are an essential part of keeping chickens warm and dry over the winter. Eco Flake shavings are environmentally-friendly pine shavings that have been kiln dried and triple-screened to remove irritating dust, allowing for high absorption and easy pick-up.

WARNING: Do NOT use cedar shavings, as they are toxic to chickens.

The Eco flake shavings should be used under your straw bedding. Some people use the Eco Flake shavings in a Deep Litter Method to keep the coop and chickens warm. To learn more about this method, visit: <https://www.thespruce.com/keep-chicken-coop-smelling-clean-fresh-3016827>

For any questions on raising chickens, or any other "Hobby Farm" animals, stop in at Hohl's Farm Supply and ask for Jennifer.
