

Operating Instructions for Gas Grill

•Dimensions 18"W x 73"L

1. Before using grill, check that the grill pans are in place & have not shifted during transportation.
 2. Connect regulator to propane tank (counter clockwise)
 3. Turn propane on & check for leaks
 4. Starting at one end, turn knobs on one at a time & light each burner
 5. After all burners are lit, adjust flame to desired cooking temperature
- All equipment is tested before delivery but should be rechecked at least 6 hours prior to use in case of malfunction
 - Equipment must be kept dry and away from moisture
 - When using multiple pieces of electrical equipment, do not overload the circuit, this may cause the equipment to fail
