### Dafna Abraham Topper (Why I Love Sunrider)

In 2000, my family and I moved to Israel from Belgium. I was ready for a change and when I heard of the Sunrider opportunity, I loved the idea right away. I loved the products as well, using the skin care, Calli®, Fortune Delight®, SunBreeze®, NuPlus®, SunnyDew®, SunSmile® Fruit & Vegetable Rinse, and Sunrider Vitafruit®. I loved them all and twice a month we would have workshops about the food and the skin care. People were really excited to hear about the products and to share the information they learned about the products.

When I started using the skin care, I couldn't believe how one product could be used for oily skin or dry skin, or sensitive, or acne-prone skin. Well, it turned out to be excellent for all skin types. All the foods I use and eat make me feel whole, holistic, and harmonious with myself. Why do I love Sunrider? Well, it makes me feel good.

Have you tried the SunSmile® Herbal Toothpaste? When you brush your teeth at night, you wake up in the morning and your teeth still feel clean. If I don't brush my teeth as soon as I wake up, I have to think twice about it later because my mouth still feels fresh and clean from the night before.

In 2005, my family and I moved to Los Angeles, California. Of course, I brought my business with me. I was looking for an extra way to promote the products, so I decided to become an esthetician and massage therapist. In my private business I only use Sunrider® products. I love them so much. Skin appears to glow after the first use, or after 12 years of use. People can't believe my age and they can't believe my skin looks so good! Ladies and gentlemen, it's the combination of the two—the foods and the skin care. As a matter of fact, our skin care contains some ingredients used in nutritional products as well. Our products balance the skin's pH.

I love Sunrider because the products "walk the walk." People ask me if I love what I do. Listen to this straight from my mouth: when I give a facial massage or a body massage, I close my eyes and move my hands as if I'm giving a massage to myself. I use Sunrider's massage oil also on the face. It's not oily at all and leaves a relaxing and energizing feeling. I incorporate the SunBreeze® Oil into deep tissue massages. I once had a client whose facial hair was just threaded. Her skin was red and she had used ice packs for 10 minutes with no change in redness. I gave her cotton soaked in Oi-Lin® Facial Toner and the appearance of redness seemed to diminish in just two minutes.

Every client asks about the ingredients. They love the smell just like I do. I invite you all to use and promote the business and the products. Why do I love Sunrider? I don't need the drugstore anymore; I have all I need. Just buy Sunrider, and use it and share it.
