

# AERODYNAMIC MUD FLAP

Our Aerodynamic flaps are professionally engineered with each vertical bar of the Aerodynamic flap molded with a patented, curved, wing-type design that makes contact with the water and channels it to the small dead air space on the back side of the flap which form drops that gravitate to the ground. Reduces splashing and lets air pass through keeping flaps from flapping around at high speeds.

PART #	ITEM
FW2424-O	1/4" BLACK AERO FLAP 24" X 24" NON-PRINTED
FW2430-O	1/4" BLACK AERO FLAP 24" X 30" NON-PRINTED

- Reduce dragging
- Saves you Kilometers per Litre
- Cut down on fuel costs
- High-impact nylon increases durability
- Reduces road spray
- Increases visibility
- Improves safety

Our custom mud flaps are available in heavy duty rubber and plastic (polyethylene) in a variety of sizes, colors and thicknesses.

Customize your mud flaps by choosing your size, material and method of printing from silk screening, raised lettering, and hot stamping for your custom artwork.

Please note:

Charges apply for additional colors and laser tooling. All products have an initial logo set up fee. For further information please contact your FleeWide Sales Representative or visit us online.
