

THE BURDEN OF DAMASCUS

ISAIAH 17 PROPHETIC DESOLATION OF DAMAS

The shooting down of the F-16D on February 10, 2018 by the Russian built Surface to Air Missile SAM S-200 VEGA was and is seen as a triumph in the Muslim world in that the 'mighty' technological and superior Israeli war-machine can be taken down. This event is very singular in that it has escalated the war in Syria wherein Israel is now in open conflict with Iran as a USA-copied Iranian drone was shot down over Israeli territory.

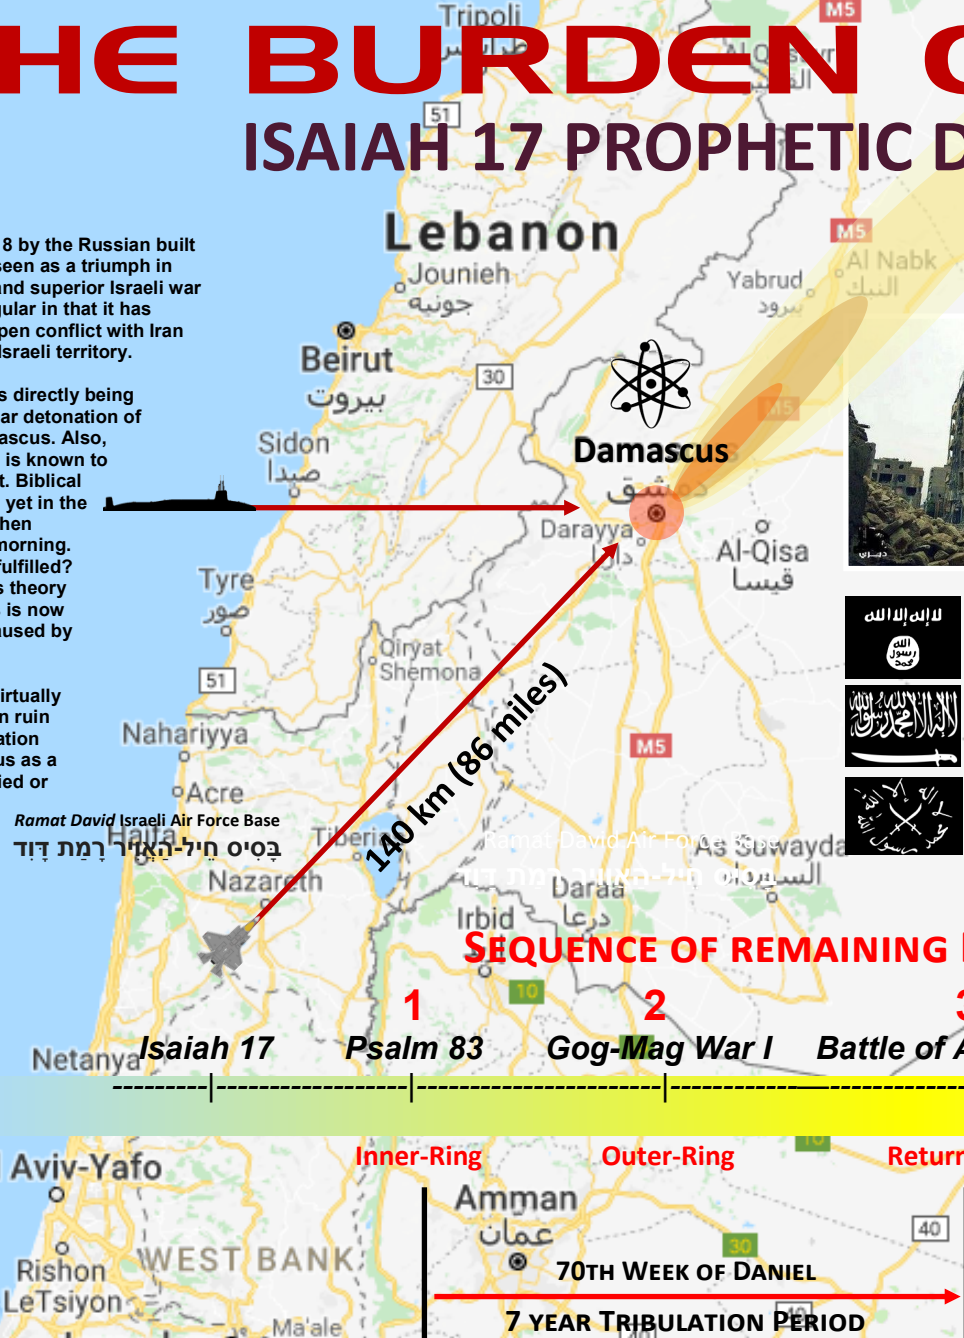

This study postulates that the ever-escalating events directly being provoked by Iran against Israel will lead to the nuclear detonation of one of Israel's nuclear devices upon the city of Damascus. Also, according to research, the ancient city of Damascus is known to be the oldest continuous inhabited city on the planet. Biblical prophecy of Isaiah 17 records a coming time period, yet in the future where Damascus would and will cease to be then inhabited, 'desolated' and its 'terror' no long in the morning. What could cause this dramatic proclamation to be fulfilled? A nuclear detonation scenario. Many sceptics of this theory would point out that presently, the city of Damascus is now virtually 'desolate' or in ruins from all the fighting caused by the years of civil war.

Not only is Damascus on the verge of collapse but virtually every other major city such as Homs, Palmyra, lies in ruin etc. There are many videos that do show the devastation and 'desolation' that has left such cities as Damascus as a wasteland. Its people, millions upon millions have died or fled to neighboring nations and Europe.

The purpose of this illustration it to consider some variables and possible prophetic sequences based off of the 'Burden of Damascus' as depicted in Isaiah 17. Many End-Times researchers believe that the destruction of Damascus is about to be fulfilled.
