

GRAND COUNTY WATER CONSERVANCY DISTRICT  
GRAND COUNTY SPECIAL SERVICE DISTRICT  
Regular Meeting ----- March 15, 1988

The meeting was called to order by the Vice-Chairman, Gary Wilson at 7:00 A.M. Other Grand County Water Conservancy District members present were Dutch Zimmerman and John Groo.

ATTENDANCE

Grand County Special Service District members present were Gary Wilson, Dan Holyoak and George White.

Others present were Kim Robertson, Dale Pierson and Roberta Highland.

Roberta read the minutes of the meetings of February 16 and March 1, 1988. After calling for additions or corrections and hearing none, declared the minutes approved as read.

MINUTES

Dale reported that Bob Klauk with the Utah Geologic Survey, together with County Commissioner Jimmie Walker went out to the property affected by high ground water on March 9th; yesterday Mark Page was in town, and Gary, Kim and Pierson reviewed the areas again. Both these men will get back to Dale with their report. Both men have suggested the Board continue gathering information, and not admit any liability for the problem. From the general statements made Dale got the feeling both Bob and Mark felt the dam was not contributing materially to the ground water. Mark Page wants to compare old aerial photos with current ones before he makes a final report. Larry Anderson will be discussing with the District the selling of the District bonds and Gary thinks he will also have some suggestions regarding the ground water for us then. Dutch states he feels that we should move rapidly to get information for the people with water in their basement. Gary suggested George Birdwell with USGS be contacted to put a weir at the inlet to measure inflows from Mill Creek. John Groo mentioned that along with any study, Castle Valley might be used as a control as there is several new wet spots in Castle Valley. Dale stated he is not at this time sure where the responsibility lies, he will have to review the Conservancy District Act. However, he feels we should supply any information we have, and he is doing that. He will still put together a written report of his own findings, if the Board so desires.

GROUNDWATER  
PROBLEMS &  
STUDY

Meter installations were discussed, and Dutch suggested the Impact Board be contacted for a grant to install meters. Dan moved we apply for a grant to install meters and join with the Water & Sewer Improvement District to put water and sewer to the new development. George
