**Kiley's Wooly Bugger using Bugger Bling Recipe:**

Wooly Bugger's can be tied in every color imaginable, this Wooly Bugger will be done in a brown.

**Hook:** TMC 5262 or TMC5263

**Bead:** or Cone head to match hook size

**Thread:** Mono or 3/0, 140 UTC color to match the Wooly Bugger

**Tail:** Brown Marabou

**Hackle:** Orange with Brown

**Rib:** Small UTC Copper Wire

**Body:** Cactus Chenille Color to match the fly.

**Bling:** Kiley's Bugger Bling – one size fits all.

1. Use a jam knot to attach the thread to the hook. Leaving the thread just behind the cone head. And clip off the tag end of thread.

2. Tie in the Brown Marabou tail and leave the thread at the bend of the hook.

3. Tie in the hackle at the bend of the hook. After securing the hackle leave the thread at the bend of the hook.

4. Tie in a small UTC copper wire for the rib. Leave the thread at the bend of the hook.

5. The body will be Cactus Chenille. Tie in a piece of cactus chenille at the bend of the hook. Advance the thread to just bead the cone head.

6. Wrap the Cactus Chenille forward using touching wraps. Tie the Cactus Chenille off behind the cone head.

7. Attach the Kiley's Bugger Bling to each side of the Wooly Bugger. Align the end of the Bugger Bling with the end of the fly. Use two wraps of thread to secure the Bugger Bling behind the cone head. Now repeat for the opposite side and then trim the Bugger Bling as needed at the cone head.

This picture show the tie down of the Bugger Bling.

8. Wrap the copper wire forward using the grooves or notches in the Bugger Bling as a guide of where to wrap the copper wire. Tie the wire off behind the cone head.

9. Spiral wrap the hackle forward (palmer) using the grooves or notches in the Bugger Bling as a guide of where to wrap the hackle. Tie the hackle off at the cone head.

10. Whip finish and you're ready to fish.
