To qualify for these Extended Warranties, you must have your puppy examined by a licensed Veterinarian (of your own choosing) within seven days of purchase or within the time span afforded you by the regulations of the municipality in which this puppy is purchased. You must also keep the puppy under the regular and continued care of a licensed Veterinarian for the term of these Extended Warranties.

These are records from an older purchase.

I can STILL get enough information to prove that this Heartland Pet “breeder” is a puppy miller ... At the time of this record, there were 73 dogs on her property. No quality breeder can manage 73 dogs.

As you can see below, their license was revoked in 2010. According to their website, they are still selling puppies. Their “home/business” address is a couple of pole barns. Do you think quality breeders raise their dogs in pole barns, on a different property than their home?

Tell Heartland you know the truth, and ask them to “go humane”
