

Roger Lee

Roger Lee has been Linda Lee's right-hand man and husband now for 49 years. He has been the Chauffeur, Roadie, Sound and Light Man, and even comes up with some great ideas. He enjoys being in the back stage area and not a center point in the show. So, most of the time, you will see Roger lending Linda Lee a helping hand with setting up, tearing down and even running the sound. He loves new technology and is constantly looking to upgrade Linda and the Band to the latest and greatest.
