43560 sq ft = acre

LAWN - 4 Step Process

- Step 1.** April-June (depending on soil temperature)
Apply **Award w/Dimension** Crabgrass Control, lasts up to 120 days, works up to 3 weeks post emergence.
- Step 2.** May-June & Aug-Sept (when temperature is between 68-80° F)
Apply **Award w/Trimec** (post emergent for broadleaf weed control) or **Viper** (post emergent for tough creeping weed control) - Best control when grass is moist. Avoid mowing & watering or rain for 48 hours. Skip this step for new lawns.
- Step 3.** June-August
Apply turf food **10-10-10** or **Delong Turf Food Fertilizer**. When temperatures exceed 85° F, cut rate by ½. *Can additionally apply **Award w/Merit** for grub control in August.*
- Step 4.** September & October
Apply Turf Food & Turf Builder for greener lawn. Winter or fall fertilizer (**Winterizer 24-0-10**) for cool season grasses.

NEW Seeding - Use 20-12-8 Seed Starter fertilizer. It will give your lawn a great jump start and GREEN grass.
