

## LS Securacy

Watch the formulation guideline video for more information

### What is LS Securacy?

LS Securacy, which is a Water dispersible oil, gives moisturizing effect and a soft texture without any sticky feeling. The material is made up of uniform particles and small particles of micro-size. So, it can maintain a transparent formula and stabilized dispersion. It is also a lamella-structured liposome that can contain a variety of oils.

### LS Securacy Series

| Trade Name     | INCI Name   |
|----------------|---|
| LS Securacy 25 | Glycerin, <b>Dimethicone</b> , Water, Hydrogenated Lecithin     |
