Hello Sedalia Residents!

Greetings from your Town Administrator.

I would like to extend wishes for a very Happy New Year to our long-time residents, and all new residents who've moved into the community in 2025. I look forward to a new and exciting year as we gear up 2026.

Please know that I am committed to continue to diligently strive towards keeping Sedalia a great place to call home, as we move along our town park project, and the potential Town Center project. Those of you who are familiar with what I call "baby step progress" understand the slow pace of local government, but trust that there's a lot going on that most don't get to see.

Nonetheless, town boards and staff are thrilled about working hard to help to meet our goals, and we're thrilled about what's to come for future Sedalia. Thanks so much to those of you who regularly partner with the town in some form or fashion, and how many of you continue to encourage us along the way. You are greatly appreciated. Best wishes to everyone and I hope you all have a Happy New Year!!

Most grateful,  
Cam Dungee, Town Administrator

## Stormwater - or “Stormsnow” tips

As you see tips or regulations around stormwater in North Carolina, it's important to remember that if it snows, snow also falls under “stormwater.”

Often good landscaping is good stormwater management. Mulching gardens and vegetation, not letting snow pile on top of vegetation, and keeping gutters clear to protect the ground and around your home all help prevent erosion and pollution into NC's water ways.
