## Transitional Art

### The Brand

Founded in Largo, Florida, Dubois Art, LLC is a transitional wall décor brand rich in art heritage and vision. The company sees transitional and relaxing art as the landscape for today's gracious living. Offered in an array of soothing sea-glass colors, these quality giclee prints on canvas provide timeless works of art. Awarded and curated artist, Lori Dubois, specializes in refined abstracts and expressive seascapes which call to mind contemplative environments, serene places and tranquility itself.

### The ART

Dubois' mastery and skillful representation recreates the sea and sand as impressions of feelings rather than as a literal perspective of the seaside. Nature's panorama serves as her constant muse. Her detailed command of color and form blend the serenity of nature with ultra-chic flair to create glorious results in her highly regarded modern wall art. Her signature style accentuates world-class home décor with relaxation and living well.

### The Vision

Ultimately, the partnership, of Attorney, Joseph A. Manzo and Artist, Lori Dubois, was the invention of the shared aspiration to enhance home décor through the influence of relaxational art. Their mission was to introduce an exceptional collection of transitional wall essentials to accommodate personal style in a variety of size orientations. Their vision has resulted in exceeding expectations with an amazing and diverse product assortment of Giclee prints on canvas perfectly suited for today's home decor needs.

Coming from corporate life, both Joe and Lori have a high standard of quality and penchant for design. Plans for the future include additional artistic transfers for home decor and commercial products. Given the demand for art within the design sector, it's clear they have a very exciting road ahead!

## The Fashion Influence

It's evident the appeal of up-scale Transitional home décor has become a priority, especially with Millennials. So much so, that luxury brands, in a variety of industries, are recognizing new-found opportunity to enhance their label with Home Décor Vogue.

The fashion industry affirms they successfully taught consumers to dress with artistic and eclectic style; now consumers look for this contemporary timeless indulgence in revitalizing the home with Transitional design. Fashion has evolved as a cultivated expression of art, design and personalization ... the confines of rules are pretty much abandoned.

High fashion inspiration offers an artistic blend of old and new to reinvent timeless retro-chic and everything in between that defines comfort, luxury and style. ***The home design front is following suit to revitalize interior décor with artistic and eclectic style!***

Dubois Art, LLC, a premier wall décor company, explores the benefit of using Art as the focal point and backdrop for the room to instantly add modern and timeless renewal. The Artist and Co-Founder of the brand, Lori Dubois, believes adding Art first provides a blueprint to build the room around.

Contrary to developing the room design with a commitment to the furniture first, ***consider starting with the Walls and building from there. You may be happily surprised to discover an immediate transformation with adding new wall color and art!***

## Empowering Home Décor Retailers to EVOLVE

Dubois Art, LLC, a premier wall décor company, has identified a niche opportunity for Home Furnishing Retailers to enrich their brand with ART that emanates *luxury fashion-fused* influence to **reinvent** eclectic and personalized Home Design.

Empowering a Retail brand to optimize market share with Artfully modern decor is easily achieved with Coastal and Abstract art that take cues from nature to invoke *Zen-like tranquility*.

Embracing basic neutrals for the walls in gray, beige, taupe and sea-glass color palettes, *which are in no danger of becoming dated*, provides an inspired interior panorama for the room.

Adding Art to the brand translates to innovative opportunity for Home Furnishing Retailers to create a bespoke renewal for every room! Transitional designs break out of confined and rigid décor guidelines and add renewal with uncluttered and eclectic balance.

Art and walls provide an immediate design influence and vibe for the space.

Dubois recommends considering the walls as a blank canvas with endless opportunity to create personalized aesthetics for the room.

Since Transitional Abstract and Coastal art motifs are influenced by nature, they quickly establish a way to tap into your Inner-Zen to invoke a sense of tranquility. In fact, studies indicate soothing art can promote relaxation, concentration and living well.

Transitional décor is not a trend, it's a concept for unsaturated, simplistic style with personalized expression.
