

## SUMMER IS COMING SOON!

Are you ready for summer? June 20 is the official day!

The long, wet winter and spring are gone and Summer 2024 is upon us. If you're going out on the road this Summer.... be careful and have fun! We can handle your "to do list" while you're gone. Then you come back home to a new house or a new space re-painted, redecorated, re-built, or remodeled. With you there or with you gone... Don't worry! Homeowners in northeast Texas have been entrusting Williams Renovation with their homes since 2007. Call today to schedule 214-325-3046!

- \* Water damage or structural repairs - every kind of carpentry.
- \* Special projects of every type and size imaginable.
- \* Kitchen and bath remodeling - large or small. Painting too!

\*New siding - new doors, windows - patios - just about anything!

MAINTENANCE REMINDERS:

\* Check your sprinkler heads and system for LEAKS and make any necessary repairs. *Water is too valuable to waste.*

\* Remember summer is the time to keep your FOUNDATION watered with *soaker hoses*. A sprinkler system will NOT keep a foundation adequately watered. If the soil is cracking, or there's a GAP at the foundation it's already too late. Put a timer control on your outside hose bib (spigot) for those soaker hoses.

\* We can get your house re-painted inside or out. Nothing like a *fresh coat of paint* before that big party here soon!

\* Have a professional perform a maintenance check and *cleaning of your air conditioning system*. Having a maintenance plan is smart with a reliable company so you're not caught off guard if something breaks. AC condenser replacements are expensive.

\*\* *PLEASE CALL BURTON WILLIAMS AT 214-325-3046*  
or look us up at [williamsrenovationdfw.com](http://williamsrenovationdfw.com)

*☺ HAVE A GREAT SUMMER EVERYBODY! ☺*
