Vending Machine Operator's License

Iowa law exempts vending machines that dispense only prepackaged non-hazardous foods from obtaining a license. Vending machines that require a license are those dispensing the following items:

- *"Non-prepackaged foods"* which include post and pre-mix machines dispensing such items as coffee, soft drinks, soups, and similar items in cups; and
- *"Potentially hazardous foods"* which are food products that must be stored at 41°F or colder, or 135°F or hotter.

The operator shall maintain within the jurisdiction of the regulatory authority, a list of all vending machines and machine locations operated by the licensee, and shall make the list available to the regulatory authority upon request.

List the Number of Licensed Vending Machines by Location in each city, in the State of Iowa

Name of Location	Address of Location	City	Number of Machines
