

Okaloosa Master Gardener Association PROGRAM TOPICS & SPEAKERS

The programs listed below designated as PP are PowerPoint presentations that will require the ability to project our presentation on a light-colored wall or screen.

We have our own laptop and projector but will need electricity, a room with dim lighting, and a suitable wall or screen.

Please contact Scott Berry, our Speakers' Bureau coordinator, at swberry@cox.net to arrange a presentation for your group.

June 2020
