Permit Application Notification

If you have a Homeowners Association it is recommended you apply to your Homeowners Association Architectural Review Board for approval of your permit request to ensure it does not violate your association rules and regulations. The city cannot deny a permit if it meets city legal requirements but you could face penalties and fines from your HOA if you go forward without the ARB approval.

The ARB representative can sign this form approving your project. Issuance of a city permit without the approval of your HOA does not give a property owner legal standing to circumvent your Homeowners Covenants and Restrictions.

WARNING TO OWNER: Your failure to record a Notice of Commencement may result in your paying twice for improvements to your property. If you intend to obtain financing, consult with your lender or an attorney before recording your Notice of Commencement. The issuance of a building permit does not assure the building setbacks have been met or that the structure does not encroach on an easement. The owner and/or contractor have the sole responsibility of determining compliance with setbacks and non-encroachment of easements. If the City of Mascotte determines the structure does not meet applicable setbacks or improperly encroaches on an easement, the owner is responsible for moving the structure, restoring the easement to its original condition, or otherwise making the structure comply with City setbacks and other land use requirements. Permits expire 6 months after issuance.
