## HISTORY

*“The World at Peace; People Empowered & Enabled to Fulfill Dreams!”*

**Empowered Enterprises** was founded in 1993 under the name of Executive & Management Recruiters to meet a need in the Human Resources management field: industry professionals would identify qualified candidates to present to the hiring companies within that industry. The company was started by R. Means Davis, V, a fourth generation insurance professional. Naturally the insurance industry was the first to benefit from Empowered Enterprises’ methodology. Over the years, as the company’s services have grown, the name of the company has changed to reflect that expansion. In 1998 it became Global Personnel Resources, and subsequently added Creative Corporate Partners and Creative Career Partners divisions, and finally in 2002 became Empowered Enterprises International to encompass all of the services and resources provided.

Beginning in 1993 Empowered Enterprises provided permanent placement services to our clients within the insurance industry. With a focus on matching the corporate vision of our clients to the career goals of our candidates, we have proven effective in contributing to the success of our clients in a wide variety of ways. We provide individual and organizational coaching to professionals to bring their vision and creativity to the company, which allows the company to achieve unprecedented results. Empowered Enterprises has grown with our clients, and strives to meet their needs not only by providing professional guidance, training & development, but in creating their corporate vision in reality through human resource management.

With a strong reputation for integrity and effectiveness based in successful service to the insurance industry, in 1998 the company expanded to offer its services to the telecommunications, financial services, and information technology industries. By creating a team of industry experts, rigorously trained in Empowered Enterprises’ services, resources, and methods, today Empowered Enterprises is able to provide its services to a wide variety of industries.

In 1998 the company also opened its Creative Corporate Partners and Creative Career Partners divisions. From the successes of these divisions, today Empowered Enterprises develops dynamic organizational and managerial structures, providing our clients the opportunity to create, implement, and realize the organizational vision. Paralleling the services to organizations, Empowered Enterprises develops dynamic Career Plans that provide our clients the opportunity to create, implement, and realize their personal vision. Our experts work with the individual to identify their dreams, commitments, and marketable skills, background, and qualifications; we work together to identify potential career paths, and design a Plan of Action, creating a powerful structure for growth, success and fulfillment.

Today all divisions and services are provided under the consolidated name, Empowered Enterprises International, llc. We are a global enterprise dedicated to providing career and organizational strategic planning, as well as custom designed training and developmental seminars. We are committed to transforming the global workplace, creating opportunities and structures for people to be empowered, enabled, and successful, self-expressed through their careers, and ultimately ensuring the continued growth and delight of our clients and our enterprise.

***Our vision is simple: people loving their careers, and producing unprecedented results.***

**LEVEL TWO: LIVING PROSPERITY**

After you have completed the Prosperity Strategy program, you have the tools and information to live a happy, balanced, prosperous life. But PROSPERITY occurs beyond the knowing of something. Level two takes what you've learned and supports you in

**Implementing & Integrating** it into your life. Living Prosperity is a year-long program taking each of the sessions of your Prosperity Strategy and delving deeper into each of the components, and working with you to integrate them into your life.

## The Power of Awareness

POA is a two and a half day transformational workshop that will take you on a journey toward self-awareness, waking up to the “something” in your heart that calls forth the most powerful, brilliant, miraculous you. POA is designed to teach you how to align your mind, body, heart and soul; this workshop provides a key to achieving enlightenment through a clear understanding of how the mind works.

### ***In this workshop you will***

- ∞ Discover the distinct roles of the mind, the body, the heart and the soul.
- ∞ Explore the power of the conscious and unconscious mind, in order to understand the source of your beliefs, habits, actions and reactions
- ∞ Be guided through several experiential exercises that will show you, in very simple, yet fun and practical steps, how you can create your life by aligning the quality of your thinking, the needs of your body and the desires of your heart.
- ∞ Reconnect with your purpose, gain a sense of peace, power and aliveness that will transform the way life occurs for you.
- ∞ Discover your passion
- ∞ Develop clarity and self-confidence
- ∞ Learn how to transform your relationships
- ∞ Become aware of the power of your thoughts and learn to shift from the ones that do not support you to the ones that express your heart’s desires.
- ∞ Understand how we all have the ability to live the life we desire and to create the experiences we want.
- ∞ Learn practical tools for powerfully dealing with the circumstances of life, making the changes you desire, and enjoying your magnificent journey.

At the core of The Power of Awareness Program is the belief that everyone is magnificent and has a unique and special gift to share with the world. We believe life is meant to be fun and easy. It is meant to be a delicious experience, where peace, joy, health, abundance, and love are our constant state of being; where we deliberately choose happiness, and where love is the foundation upon which we base all of our decisions. In order to experience this, we must have an awareness of how our mind is conditioned. Equally as important, we must become aware of the roles our body and heart play in our ability to become a whole individual who is then prepared to express their magnificence.
